It clarifies how the Vienna Convention on Contracts for the International Sale of Goods of 11th April 1980 tried to harmonise these differences with a codification technique typical of civil law giving privilege to rules of civil law most of the time but also introducing institutions from common law that are not incompatible with civil law. It explains why the general principles of civil law and of UNIDROIT help with this goal of harmonisation integrating the loopholes of the UN Convention on Contracts for the International Sale of Goods (CISG) during its interpretation. The work demonstrates why codification prevails over common law in the CISG most of the time giving certitude and sophistication to this matter which is vital for global commerce *Daily Graphic* Ransford Tetteh, 2014-04-17 **Samsung Galaxy S 4 For Dummies** Bill Hughes, 2013-05-30 Explore a world of possibilities with your Samsung Galaxy S 4 smartphone.
