Strategic Management Accounting in a Network Economy Wingsun Li, 2023-08-26 This book continues from author's first SMA publication in 2018 also by Springer and discusses the new roles of SMA in the new network economy Emerging digital technologies have revolutionized the business world with groundbreaking rules and innovative business models New knowledge and information technologies have inspired new business ideas and created more information platforms at a lower cost yet highly efficient in the market The new business transformation also encourages more inter organizational cooperation to cope with rapid changes All these novelties add challenges to corporate individuals in managing businesses beyond their organizations in particular financial professionals e.g. CFO who are experts in the team Therefore SMA is assigned a new role in the new network economy Similarly SMA calls for major updates and revisions This urges author to write this book to meet the new demand The author has selected important topics that are particularly pertinent to the new Internet economy These topics include how to make decisions under business uncertainty how to value businesses in general Internet stocks and intangible assets in particular Business collaboration and integration are usual means to acquire synergy value How does SMA help deliver the best results How are business models and information platforms built as sense making revenue models even though these platforms never charge for services How is market power and brand value measured How does trust supplement control in new network organizations Finally how is value created captured and allocated in a fair manner The book goes through detailed examinations of each topic with cases examples and illustrations as required

Secondhand Adam Minter, 2019-11-12 Revelatory terrifying but ultimately hopeful Elizabeth Kolbert Pulitzer Prize winning author of THE SIXTH EXTINCTION From the author of Junkyard Planet a journey into the surprising afterlives of our former possessions Downsizing Decluttering Discarding Sooner or later all of us are faced with things we no longer need or want But when we drop our old clothes and other items off at a local donation center where do they go Sometimes across the country or even halfway across the world to people and places who find value in what we leave behind In Secondhand journalist Adam Minter takes us on an unexpected adventure into the often hidden multibillion dollar industry of reuse thrift stores in the American Southwest to vintage shops in Tokyo flea markets in Southeast Asia to used goods enterprises in Ghana and more Along the way Minter meets the fascinating people who handle and profit from our rising tide of discarded stuff and asks a pressing question In a world that craves shiny and new is there room for it all Secondhand offers hopeful answers and hard truths A history of the stuff we've used and a contemplation of why we keep buying more it also reveals the marketing practices design failures and

racial prejudices that push used items into landfills instead of new homes Secondhand shows us that it doesn't have to be this way and what really needs to change to build a sustainable future free of excess stuff **Daily Graphic** Kingsley Inkoom,2014-09 Circular Business Models in the Mobile Phone Industry David Watson,Anja Charlotte Gylling,Naoko Tojo,Harald Throne-Holst,Bjørn Bauer,Leonidas Milios,2017-11-30 The circular economy offers opportunities to reduce resource use and waste whilst providing business opportunities This is also true in the mobile phone industry that has been characterised by high rates of product obsolescence The emergence of the smart phone has changed the landscape making repair refurbishment and resell attractive to businesses and consumers Moreover emerging modular phone design should allow functional upgrades with low resource wastage This report investigates the adoption of circular business models within Nordic markets Producers retailers refurbishers recyclers and resellers tell of their motivation experiences and the challenges that they face A special look is taken at consumer and waste law and the challenges and opportunities they represent The report ends with 17 policy proposals that can accelerate the adoption of circularity in the sector
