

AI image generators

COMPARISON

Comparison Criterion	Midjourney	DALL-E	Stable Diffusion	Craiyon	Bing Image Creator	Simplified
User-friendliness	Suitable for both beginners and experienced users.	Highly intuitive and user-friendly, ideal for beginners.	Suitable for users with a bit of technical background, offering more control over the generation process.	Extremely easy to use, making it great for beginners.	Very easy to use.	Designed with a focus on simplicity and efficiency for business and marketing purposes.
Features	Wide range of features, including premade styles, images, blend and text-to-image generation.	Known for its ability to create detailed and coherent images from complex prompts.	Allows for fine-tuning of images, appealing to users who like to tweak details.	Basic but efficient, suitable for straightforward image generation.	Simple text-to-image generation with features.	Text-to-image generation with features tailored to creating marketing and social media content.
Quality of output	High-quality images with realistic details and a wide range of styles.	Generates high-resolution images with a focus on realism and detail.	The high-resolution output is impressive.	Good for basic purposes.	Mixed quality of images.	Generally high-quality images.
Cost	Offers a subscription plans.	Offers a freemium model with a certain number of free credits, then shifts to a paid model.	It has free credits with option to purchase more.	Free to use.	Free as part of Bing search.	The free plan offers a reasonable amount of credits that get renewed each month. Offer also a subscription plans.
Advantages	Generate a wide variety of images with possibility for generation of their alternatives.	DALL-E 2 is great for beginners, in case of DALL-E 3 its advantages is a more free style of providing commands.	Good level of customization.	Ideal for simple image generations.	Great for quick and simple creations.	The range of tools and options available in Simplified makes it a go-to for various creative projects.
Disadvantages	Can be difficult to use for beginners and paid plans can be expensive for some users.	Sometimes it takes time to get the desired results with DALL-E 2. DALL-E 3 is not available for free.	There's a bit of a learning curve, especially with all the customization options.	Lack of customization.	Not suited for complex or highly artistic projects.	Paid plans can be expensive for some.

Human-Centered AI: An Illustrated Scientific Quest Panagiotis Germanakos, Monika Juhasz, Aparna Kongot, Devashree Marathe, Dimitris Sacharidis, 2025-03-28 Embark on a captivating exploration of human centered computing and AI where the convergence of technology and human interaction unveils a world of endless possibilities In the age of wireless communication pervasive computing and the Internet of Things the synergy between humans and machines has never been more profound This book delves deep into the heart of this symbiotic relationship shedding light on the intricate dynamics that define our digital landscape From the humble human computer communications via simple interaction points to the complex web of virtual networks every aspect of this journey is meticulously examined Through a lens of innovation and insight we navigate within the complex terrain of user actions individual differences and algorithmic computations At the core of our exploration lies a quest for understanding a quest that transcends the boundaries of traditional research and ventures into the realm of cutting edge technology Special emphasis is placed on promoting original insights and paradigms incorporating aspects derived from psychological theory and individual differences in adaptive computational systems and recommenders Our goal is simple yet ambitious by enhancing explainability fairness transparency and decreasing bias during interactions to empower users with greater control and understanding of the technologies that shape their lives Through a blend of visual storytelling and specialized textual contributions we invite you to join us on this extraordinary journey Whether you're a researcher practitioner or enthusiast in the field of AI and human computer interaction this book offers valuable insights and perspectives Prepare to be inspired enlightened and empowered through this transformative journey as we unlock the true potential of technology in service of humanity

Fifth European Workshop on Structural Health Monitoring 2010 Fabio Casciati, Michele Giordano, 2010

Advancing the Investigation and Treatment of Sleep Disorders Using AI Kumar, M. Rajesh, Kumar, Ranjeet, Vaithyanathan, D., 2021-06-25 There are more than 80 different sleep disorders including insomnia sleep apnea restless leg syndrome hypersomnia circadian rhythm disorders and parasomnia Good sleep is necessary for optimal health and can affect hormone levels and weight The use of artificial intelligence AI and biomedical signals and images can help in healthcare diagnostics that are related to these and other sleep disorders *Advancing the Investigation and Treatment of Sleep Disorders Using AI* presents an overview of sleep disorders based on machine intelligence methods in order to learn and explore the latest advancements developments methods systems futuristic approaches and algorithms towards sleep disorders and to address their challenges This book also discusses recent and future advancements in various feature extraction techniques and machine learning methods Covering topics such as biomedical signal processing augmented reality for clinical investigation and sleep disorder detection this book is essential for sleep medicine practitioners clinical psychologists psychiatrists medical technologists doctors IT specialists biomedical engineers researchers graduate students and academicians

Digital Libraries Across Continents Le Yang, Alicia Salaz, 2025-06-13 *Digital Libraries Across Continents* illustrates how digital librarianship practitioners and scholars digitize exhibit and preserve their cultural heritage and how these practices may be influenced by the policy economic and sociocultural environments in which they are developed Including scholarly articles case studies examples of best practice and conceptual essays solicited from different continents this book provides an overview of the status quo of digital libraries around the globe The case studies examine how macro level policy funding and social priorities influence the development of digital libraries The volume offers a deeper understanding of the similarities and differences between libraries in different countries and the ways in which they view foster develop and sustain digital librarianship Chapters within the book examine systems standards workflows content protocol social and policy environments culture metadata and more through a series of case studies provided by practitioners working in these settings Taking a comparative international approach the book promotes the development of inclusive accessible and sustainable digital libraries that serve a global human knowledge endeavor *Digital Libraries Across Continents* provides a wide ranging examination of issues in cross border digital library contexts It will be essential reading for library practitioners as well as information scientists and educators

Notorious Noir Girls Pin-Up Eva Quim, 2025-04-05 *Big Beautiful Girls in Trouble* Fifty seven full page high resolution renderings hand repainted and retouched AI output featuring a bevy of fictional busty beauties in all their retro movie star glory With 10 additional pages of marketing shots for the fictional film *Eight Deadly Words and Fatally Blonde* directed by the famous fictional director Rusty Mayer who is in no way my fictional version of Russ Meyers No child faces No six fingered or three fingered hands From the books introduction I've been working with AI image generation for a few years now The tech gets better easier to use but censorship makes some kinds of bodies nearly impossible to generate These bodies actually exist in the real world there are

dozens of flesh and blood girls on instagram that look a lot like my girls but the AI censors consider a certain kind of woman's body to be in poor taste The hell with them Here's to poor taste I've retired my first Noir Pin up book though its contents are still on sale in my 365 image omnibus on sale here This new take showcases generative AI's rapid evolution as well as my own So here's to the big beautiful girls of noir women really but most like being called girls How do I know this Because they're mine and I know how they think I made them up For you Enjoy *CAMA Mystery Sampler Pin-Ups* Eva Quim, 2025-04-29

The CAMA Mystery Backstory It starts in the mid sixties at a Hollywood insider's party at Bohemian Grove Four Great Men Gerry Anderson Irwin Allen Russ Meyer and Roger Corman get into a heated argument with Gloria Steinem about exploitation films featuring female leads Were they empowering or objectifying The four men say empowering Steinem says objectifying Finally frustrated by their refusal to grasp feminism she storms off with Jane Fonda and Warren Beatty The Great Men stay behind and talk all night They may or may not have dropped acid an experimental LSD isomer not 25 but 69 courtesy of Timothy Leary In a collective creative frenzy they brainstorm loglines show ideas and pitches But by morning they abandon it all Too risky too weird too hard to sell Why Because every show starred women The leads the experts the commanders Men were assistants secretaries love interests Pretty feminist right But the women They were all classic Russ Meyer beauties in outrageous sci fi costumes Just like Star Trek miniskirts UFO's Moon Girls purple wigs and silver jumpsuits and Diana Rigg's Avenger's cat suits CAMA was going to be empowering and objectifying Maybe one was the Trojan horse for the other Who can say It all feels firmly morally gray to me Russ's Faster Pussycat Kill Kill was arguably the genre's first film That's one reason he's one of the Four Great Men behind the story But It just won't sell Corman said in the cold clear light of day when everyone was sober And that was that Enter their assistants Rusty Mayer Allan Irwin Andy Garrison and Rupert Coremen with an e not an a These four had definitely done the weird LSD 69 They'd been sitting in the darkened room listening to the debate between Steinem Fonda and the great Men quietly taking notes all night long Fun fact Allen Goldman had changed his name to Allan Irwin just to get close to Irwin Allen and it worked CAMA was going to be short for Coreman Allen Meyer Anderson but the assistants adopted it even though it no longer quite fit Irwin's inverted name wrecks the acronym it should be CIMA Using it anyway was as it turned out a very CAMA thing to do Leary loved the whole idea of thing Upset the Great Men weren't going to pursue the female lead projects he dragged Rusty Mayer through a secret passage into a hidden room where a somber looking long finger nailed man sat with Kleenex boxes on his feet It was Howard Hughes With great difficulty thanks to those three inch fingernails Hughes wrote Mayer a check for 20 million Memo line To make sexy sci fi movies And so footloose and fancy free and incredibly well funded the Not So Fabulous Four were ready to try to make history For seven years they cranked out weird brilliant female led genre shows and B movies that played briefly in drive ins and art house cinemas most of which soon pivoted to porn The CAMA story ends in the bankruptcy of the four directors for a variety of blunders all the completed work is lost or destroyed in a series of freak accidents and

targeted legal actions All that remains are clips here and there fragments of bootlegs production notes and recollections Still reading Okay That was all made up I wrote the texts AI helped me make the images These aren't photographs There are no individual human models involved in the making of these images None of these images reproduce copyrighted photographs or illustrations no image search reveals a match for any of these images because while I have used AI to assist in their creation there are no raw AI images in this book I begin with a customized Stable Diffusion model SDXL2 based a checkpoint merge of several models and my own artwork I generate a thousand images at a whack on my own computer using open source Stable Diffusion software Then the hard part which is curation finding the good ones the one out of a hundred worth working on longer This is half of what you are paying for The other half is the laborious Photoshop repainting and recoloring repainting oh so many hands compositing correcting anatomy through judicious liquefaction and obsessive noodling and a lot of adjustments small and large Puppet warp Background replacement In painting with Adobe's image generation to remove stupid AI crap repair eyes fingernails background elements I work on their expressions until the images come alive spending a lot of time on the eyes The raw AI images never work for me until I tweak them No copyrighted franchise characters or living artist prompts were used in the making of these images They represent a collective effort the prompts a tiny part really the artists work in the models and the curation design and montage and retouching on top of that At this point I'm deep in the hole on this project I've made almost nothing It's a labor of love which I hope you share with me

Generative AI for Academics Mark Carrigan, 2024-12-11 This is your indispensable guide to navigating the rise of generative AI as an academic It thoughtfully explores rapidly evolving AI capabilities reshaping higher education examining challenges and ethical dilemmas across the sector It provides useful strategies for using generative AI in your scholarly work while upholding professional standards This practical guidance addresses four core areas of academic work Thinking How to use generative AI to augment individual and collaborative scholarly thinking that can assist in developing novel ideas and advancing impactful projects Collaborating Explore how generative AI can be used as a research assistant coordinating teams and enhancing scholarly cooperation Communicating Cautioning against over reliance examine how generative AI can relieve communication burdens while maintaining professionalism and etiquette Engaging thoughtful and practical frameworks are offered for using these developments to support online engagement without sacrificing scholarly principles Mark Carrigan is a digital sociologist author and Lecturer in Education at the University of Manchester

The Routledge Handbook of Remix Studies and Digital Humanities Eduardo Navas, Owen Gallagher, xtine burrough, 2021-02-14 In this comprehensive and highly interdisciplinary companion contributors reflect on remix across the broad spectrum of media and culture with each

chapter offering in depth reflections on the relationship between remix studies and the digital humanities The anthology is organized into sections that explore remix studies and digital humanities in relation to topics such as archives artificial intelligence cinema epistemology gaming generative art hacking pedagogy sound and VR among other subjects of study Selected chapters focus on practice based projects produced by artists designers remix studies scholars and digital humanists With this mix of practical and theoretical chapters editors Navas Gallagher and burrough offer a tapestry of critical reflection on the contemporary cultural and political implications of remix studies and the digital humanities functioning as an ideal reference manual to these evolving areas of study across the arts humanities and social sciences This book will be of particular interest to students and scholars of digital humanities remix studies media arts information studies interactive arts and technology and digital media studies

An Introduction to AI and Intercultural Communication Education Fred Dervin, Hamza R'boul, 2025-09-17 An Introduction to AI and Intercultural Communication Education is the first historic volume to explore the intersection of AI and intercultural communication education interrogating both the transformative possibilities and ethical dilemmas posed by emerging technologies Through diverse scholarly perspectives the book examines how AI tools ranging from language models such as ChatGPT and DeepSeek to generative image systems could reshape the way we teach research and conceptualise interculturality While AI offers innovative opportunities for virtual exchanges automated translation and accessible learning it also risks reinforcing stereotypes Western centric epistemologies and reductive narratives if used uncritically The contributors address pressing questions Can AI facilitate decolonial and reflexive approaches to intercultural communication education or does it inevitably reproduce dominant paradigms How can educators harness the potential of AI while safeguarding against its pitfalls such as algorithmic bias and the erasure of indigenous knowledge systems Combining theoretical critique with case studies the volume highlights the need for ethical frameworks that prioritise epistemic justice pluralistic perspectives and human agency in AI assisted intercultural communication and education This book is an indispensable resource for students researchers and educators interested in the complexities of technology mediated learning as well as the broader fields of higher education intercultural studies and internationalisation and globalisation

Acting the Part E.B. Hunter, Elizabeth Hunter, 2025-10-14 Acting the Part offers a paradigm for understanding how audiences participate in immersive theater from physical spaces like the Globe in London to digital spaces like social virtual reality Reading across twenty first century productions of ancient Greek tragedies and William Shakespeare's plays E B Hunter proposes the concept of enactivity to describe the positionality audiences inhabit when their participation is critical to the narrative but cannot alter its intended course This positionality is that of the archetype the enactment of which is shaped by four production conditions a historically resonant site a canonical source an immersive space and a production specific economy that incentivizes some behaviors and discourages others At the heart of Acting the Part is a framework for identifying how a production's management of these conditions gives rise to a

range of archetypes such as worshiper sleuth cinematographer and others Against the backdrop of an ever increasing push for audience participation Acting the Part sheds new light on the many ways in which productions shape that participation in real time

The Routledge Handbook of AI and Literature Will Slocombe, Genevieve Liveley, 2024-12-30 The Routledge Handbook of AI and Literature provides an invaluable resource for those interested in deepening their understanding of the variety of theories and approaches available when AI is studied or deployed in literary contexts It also illustrates ways in which AI researchers can use literary lenses to better understand the sociotechnical dynamics and cultural imaginaries shaping human interactions with AI Both AI and literature are understood in their broadest senses here The book incorporates chapters that deal with Large Language Models Generative AI transformer architectures story generators and computational analysis Literary case studies embrace performance poetry comics as well as prose and span a wide range of historical periods from the ancient world to contemporary science fiction and Generative AI poetry The Handbook brings together early career contributors as well as some of the best known names in the digital humanities and computational literary studies It offers a fresh perspective on the past present and future of AI and literature that will appeal to students and scholars with relevant interests across a range of subjects including AI Engineering Classics Computing Digital Humanities English Ethics Film and Television Law and Narratology

Evolving Role of AI and IoMT in the Healthcare Market Fadi Al-Turjman, Manoj Kumar, Thompson Stephan, Akashdeep Bhardwaj, 2022-01-06 This book is a proficient guide to understanding artificial intelligence IoT and the Internet of Medical Things IoMT in healthcare The book provides a comprehensive study on the applications of AI and IoT in various medical domains The book shows how the implementation of innovative solutions in healthcare is beneficial and IoT together with AI are strong drivers of the digital transformation regardless of what field the technologies are applied in Therefore this book provides a high level of understanding with the emerging technologies on the Internet of Things wearable devices and AI in IoMT which offers the potential to acquire and process a tremendous amount of data from the physical world

Nonhuman Witnessing Michael Richardson, 2024-01-05 Michael Richardson argues that a radical rethinking of what counts as witnessing is central to building a framework for justice suggesting that nonhuman witnessing is central to combat contemporary global crises
