"Happy Eating" and Food Addiction in American Advertising Debbie Danowski, 2023-10-30 This book explores the addictive techniques used in advertisements for ultra processed foods which promise consequence free eating to consumers while at the same time encouraging over consumption of unhealthy food Debbie Danowski presents an analysis of promotional techniques in the context of food addiction characteristics and behaviors through an exploration of the themes used in this type of advertising These thematic messages include using food to rebel to play to relax to achieve happiness to replace exercise to achieve good health to increase intelligence to show love to bond with others and to create environmental change Ultimately Danowski argues that these competing and contradictory messages have had long term negative ramifications for American habits of consumption both literally and figuratively Scholars of communication advertising media studies and food studies will find this book particularly useful For more information check out this conversation between the author and Susan Branscome host of Food Addiction The Problem and The Solution
