Hippocrates Now Helen King, 2019-11-14 This book is available as open access through the Knowledge Unlatched programme and is available on www.bloomsburycollections.com We need to talk about Hippocrates Current scholarship attributes none of the works of the Hippocratic corpus to him and the ancient biographical traditions of his life are not only late but also written for their own promotional purposes Yet Hippocrates features powerfully in our assumptions about ancient medicine and our beliefs about what medicine and the physician himself should be In both orthodox and alternative medicine he continues to be a model to

be emulated This book will challenge widespread assumptions about Hippocrates and in the process about the history of medicine in ancient Greece and beyond and will also explore the creation of modern myths about the ancient world Why do we continue to use Hippocrates and how are new myths constructed around his name How do news stories and the internet contribute to our picture of him And what can this tell us about wider popular engagements with the classical world today in memes quotes and online
