

DISASSEMBLY

If the disassembly procedure is complex and requires many parts to be disassembled, all parts should be disassembled in a way that will not affect their performance or external appearance.

1. Inspection of parts

Each part, when removed, should be carefully inspected for malfunction, deformation, damage, and other problems.

EADAC16U

2. Arrangement of parts

All disassembled parts should be carefully arranged for effective reassembly. Be sure to separate and correctly identify the parts to be replaced from those that will be used again.

EABG0069

3. Cleaning parts for reuse

All parts to be used again should be carefully and thoroughly cleaned by the appropriate method.

integration and local adaptation or responsiveness through utilization of a firm's core facilities and organizational capabilities. To illustrate the specific implementation mechanism a framework of AGS with global market strategy and organizational capability is shown for the purpose of analysis. There is also a focus on effective ambidextrous business strategies for the digital transformation era. Distinctive features of the book include first a framework of ambidextrous innovation and AGS. Second there are analyses of examples of many industries to implement ambidexterity strategies including Korean shipbuilding firms, Korean and Japanese steel firms, LCD panel flat glass manufacturers, Japan's trucking industry, agricultural corporations and other Japanese manufacturing firms. Finally the book focuses on effective ambidextrous business strategies for the digital transformation era with the integration of open and closed innovation. The book presents specific business strategies for survival in the digital transformation era and then suggests an architectural analysis using artificial intelligence AI for the realization of AGS. The target readership is made up of academics, students and practitioners in the areas of global management, organizational theory and strategic management. Especially for those readers the book clarifies the critical practices and business strategies of innovative global firms in the era of digital transformation.
