Jennifer Jacobson,2023-10-10 Disregarding the false notion that writing instruction in the primary grades needs to be mostly teacher directed Jennifer Jacobson shows teachers how to develop a primary writer s workshop that helps nurture independent engaged writers No More I m Done demonstrates how to create a more productive engaging and rewarding writer s workshop Jennifer guides teachers from creating a supportive classroom environment through establishing effective routines shows teachers how to set up a writer s workshop and provides an entire year of developmentally appropriate mini lessons that build confidence and ultimately independence To See the Wizard Laurie Ousley,2021-02-19 To See the Wizard Politics and the Literature of Childhood takes its central premise as the title indicates from L Frank Baum s The Wonderful Wizard of Oz Upon their return to The Emerald City after killing the Wicked Witch of the West the task the Wizard assigned them Dorothy the Tin Woodman Scarecrow and Lion learn that the wizard is a humbug merely a man from Nebraska manipulating them and the citizens of both the Emerald City and of Oz from behind a screen Yet they all continue to believe in the powers they know he does not have still insisting he grant their wishes The image of the man behind the screen and the reader s continued pursuit of the Wizard is a powerful one that has at its core an issue central to the study of children s literature the relationship between the adult writer and the child reader As Jack Zipes Perry Nodelman Daniel Hade Jacqueline Rose and many others point out before the literature for children and young adults actually reaches these intended readers it has been mediated by many and diverse cultural social political psychological and economic forces These forces occasionally work purposefully in an attempt to consciously socialize or empower training the reader into a particular identity or way of viewing the world by one who considers him or herself an advocate for children Obviously these wizards acting in literature can be the writers themselves but they can also be the publishers corporations school boards teachers librarians literary critics and parents and these advocates can be conservative progressive or any gradation in between It is the purpose of this volume to interrogate the politics and the political powers at work in literature for children and young adults Childhood is an important site of political debate and children often the victims or beneficiaries of adult uses of power one would be hard pressed to find a category of literature more contested than that written for children and adolescents Peter Hunt writes in his introduction to Understanding Children s Literature that children s books are overtly important

educationally and commercially with consequences across the culture from language to politics most adults and almost certainly the vast majority in positions of power and influence read children's books as children and it is inconceivable that the ideologies permeating those books had no influence on their development If there were a question about the central position literature for children and young adults has in political contests one needs to look no further than the myriad struggles surrounding censorship Mark I West observes for instance Throughout the history of children's literature the people who have tried to censor children's books for all their ideological differences share a rather romantic view about the power of books They believe or at least they profess to believe that books are such a major influence in the formation of children's values and attitudes that adults need to monitor every word that children read Because childhood and young adulthood are the sites of political debate for issues ranging from civil rights and racism to the construction and definition of the family indoctrinating children into or subverting national and religious ideologies the literature of childhood bears consciously political analysis asking how socialization works how children and young adults learn of social cultural and political expectations as well as how literature can propose means of fighting those structures To See the Wizard Politics and the Literature of Childhood intends to offer analysis of the political content and context of literature written for and about children and young adults The essays included in To See the Wizard analyze nineteenth and twentieth century literature from America Britain Australia the Caribbean and Sri Lanka that is for and about children and adolescents The essays address issues of racial and national identity and representation poverty and class mobility gender sexuality and power and the uses of literature in the healing of trauma and the construction of an authentic self

King, 2013-03-28 A touching and provocative exploration of the latest research on animal minds and animal emotions from the renowned anthropologist and author The Washington Post Scientists have long cautioned against anthropomorphizing animals arguing that it limits our ability to truly comprehend the lives of other creatures Recently however things have begun to shift in the other direction and anthropologist Barbara J King is at the forefront of that movement arguing strenuously that we can and should attend to animal emotions With *How Animals Grieve* she draws our attention to the specific case of grief and relates story after story from fieldsites farms homes and more of animals mourning lost companions mates or friends King tells of elephants surrounding their matriarch as she weakens and dies and in the following days attending to her corpse as if holding a vigil A housecat loses her sister from whom she's never before been parted and spends weeks pacing the apartment wailing plaintively A baboon loses her daughter to a predator and sinks into grief In each case King uses her anthropological training to interpret and try to explain what we see to help us understand this animal grief properly as something neither the same as nor wholly different from the human experience of loss The resulting book is both daring and down to earth strikingly ambitious even as it's careful to acknowledge the limits of our understanding Through the moving stories she chronicles and analyzes so beautifully King brings us closer to the animals with whom we share a planet and helps us see our own experiences attachments and emotions as part of a larger web of life death love and loss **Fur, Feathers and Fins** Flo Shaw, 2016-11-04 Through the years I have had the privilege of knowing some wonderful dogs and cats bunnies and hamsters goldfish birds cows horses ducks chickens and pigs This book started out as stories for my grandchildren and when it was suggested that others might enjoy reading it the idea took hold and *Fur Feathers and Fins* became a reality All of the stories are true Some may be hard to believe some will make you laugh while others may make you cry If you've ever shared your life with a pet you know the joy they can bring to you and if you've never had a pet I hope you enjoy reading about mine I have enjoyed writing about them remembering each one and shedding a few tears along the way If you decide that you want to bring a fur friend into your family please go to the local animal shelter and give a precious kitten puppy dog or cat the forever home they so deserve
