The Methuen Drama Book of Royal Court Plays 2000-2010 Ruth Little,2010-07-02 An essential anthology of five plays originally staged by what the New York Times described as the most important theater in Europe The Royal Court *Every Wicked Man* Steven James,2018-09-04 A criminal mastermind s chilling terrorist plot forces FBI Special Agent Patrick Bowers to the brink in the latest thriller from bestselling novelist Steven James When a senator s son takes his own life and posts the video live online Agent Bowers is drawn into a complex web of lies that begins to threaten the people he loves the most As he races to unravel the mystery behind the suicide and a centuries old code that might help shed light on the case he finds a dark pathway laced with twists and deadly secrets that touch a little too close to home A fast paced intelligent thriller Every Wicked Man will have readers racing through the pages to its thundering conclusion **America's Gun Wars** Donald J. Campbell,2019-04-10 This book examines the controversies surrounding gun control which are less about whether it works and more about whether the nation should prioritize traditional values of rugged independence or newer values of communitarian interdependence America s Gun Wars contends that an understanding of America s gun controversy cannot be found in statistics documenting the rise or fall of violent crime or in examining trade offs between societal needs and personal safety or in following the political maneuvering of advocacy groups such as the National Rifle Association or Everytown for Gun Safety At heart the gun controversy is a values conflict involving how people see themselves and how they

make sense of the world they live in Understanding this controversy requires a deep analysis of the profoundly different cultures inhabited by pro and anti gun activists lawmakers and voters Written by a social scientist who has spent his life exploring how values and self perceptions impact behavior this book explores the origins and evolution of cultures in American society the beliefs experiences and principles that guide the behavior of members in both camps and the triumphs and failures that the two sides have experienced from colonial times to the present day *The Belsen Files* Jack Carnegie,2022-06-30 The wartime files retrieved from the loft of a former camp guard at Belsen provide a name and a cropped photo of a meeting with Martin Bormann Hitler s personal secretary and the second most influential man in the Nazi Party The problem is that even the world renowned Nazi hunters the Wiesenthal Centre haven t heard the name before and no one knows what its owner looked like Trying to find the answer will take the investigators down a dark path of human experimentation gene manipulation and the possibilities of the rise of a Fourth Reich The Belsen Files In a forgotten loft a Belsen camp guard s hidden files surface linking a vanished figure to Martin Bormann and Hitler s inner circle A faded photo and cryptic name ignite a mystery erased from history Emil Janowitz and his elite Nazi hunters plunge into a treacherous probe Clues unearth a legacy of forbidden experiments and genetic horrors hinting at a dormant Fourth Reich The Belsen Files is a pulse pounding descent into cruelty s abyss where truth blurs hunter and hunted As secrets unravel the team confronts humanity s darkest impulses and the peril of unchecked power This psychological thriller challenges morality identity and fate s manipulation Some truths demand a steep price to bury the past and safeguard the future Unravel the enigma But beware some doors should remain sealed **Talking with Psychopaths: Mass Murderers and Spree Killers** Christopher Berry-Dee,2023-08-22 Bestselling true crime author Christopher Berry Dee s latest book tackles the heavy crime of people who randomly kill large numbers of others spree killers and those who set out to do so in specific places or situations mass killers As such killings become more frequent the ready availability and ease of obtaining firearms and weak backgrounds checks in the United States inevitably lends to many of these cases but there have been other recent examples in the United Kingdom New Zealand and Norway where extremely robust firearms legislation could not stop these horrific crimes What is more difficult to establish is the motivation behind such killings Some are occasioned by grievance real or imagined while others have their origins in a sense of failure or feelings of inadequacy yet others seem to be driven by a desire for power over their fellow humans often coupled with an overriding contempt for the lives of others In a search for answers Christopher Berry Dee offers case studies in some of the most infamous mass killings of the past fifty years from school massacres to workplace killings hate crimes to familicides But is the awful truth that such murderers are almost impossible to predict and therefore almost impossible to prevent Dig in and find out Warnings Unheeded Andy Brown,2016-11-02 On 20 June 1994 a gunman opened fire inside the busy hospital of Fairchild Air Force Base Four days later the crash of a B 52 bomber killed some of Fairchild s most veteran aviators The twin tragedies struck suddenly but not

without warning This nonfiction narrative is a page turner you will not put it down CMSgt William Kelly USAF Office of Special Investigations Warnings Unheeded is the work of criminal investigator Andy Brown As a young military policeman Brown saved countless lives when he raced to the hospital and ended the gunman s shooting spree His devotion to duty prepared him for the deadly gunfight but he wasn t prepared for the traumatic effect of learning that twenty six people had been gunned down prior to his arrival or for the loss of four aviators later that week On a quest for answers Brown spent two decades investigating the events that led to the mass murder and the plane crash His relentless research uncovered numerous people who had warned of the impending violence and disaster With heavy use of firsthand accounts Warnings Unheeded lets us experience the unfolding tragedies through the eyes of the men and women who struggled to prevent them From the people who tried to help a troubled airman even as he plotted to kill them From the aviators who were forced to fly with a seemingly suicidal pilot And from a military policeman who offers a candid insight into the hidden cost of becoming a hero Warnings Unheeded is a story of heroes and humanity of violence and mental illness and if we are willing to listen a timeless warning from the ghosts of our past Best book I ve read in some time Without lurid details or overwrought prose Brown illustrates the events leading up to the twin tragedies with a thoroughness and professionalism I suspect he brings to every task he takes on But this is no dry recounting of facts and Brown s compassion for the victims is as clear as his prose I highly recommend this book R Jensen Gray Dog Press In vivid and thoroughly researched detail Andy Brown masterfully weaves two tragic stories this is an important and well written read Gregory K Moffatt Ph D Author of Blind Sided Homicide Where it is Least Expected A highly readable book from a unique source Recommended for a wide audience Best selling true crime author Ron Franscell Contains more than 70 images and photographs

Border Diptych Luis Mora-Ballesteros, 2024-02-12 Translator's Note Perhaps Schopenhauer was right I am all other men any man is all men Shakespeare is in some manner the miserable John Vincent Moon By opening his debut novel with these lines borrowed from Borges Venezuelan author Luis Mora Ballesteros foretells the central concern of his literary project representing the universal in the particular Here the particular in question is the writer's own Tachira State in the rural borderland that straddles Venezuela and Colombia In its portrayal of this place and its people Mora's work exemplifies the defining themes of the twenty first century migration assimilation and the creation of new collective identities Diptych is a term borrowed from visual art that refers to a symmetrical composition laid out on two panels side by side Diptych of the Border is likewise symmetrically composed It weaves together stories of migrant families who for decades have fled endemic violence in Colombia to settle in an overlooked region of Venezuela forming a hybrid identity unique to the area Later in the novel in the 2010s we meet migrants escaping Venezuela's current economic disaster moving in the other direction to form a new diasporic community in Colombia Diptych attempts to show how such collective identities are constructed In the following excerpt from the novel's opening pages we see a mosaic of images new surroundings that provoke a sense of difference there's no sea here snapshots of the violence that drives people away the march of balaclavas and rifles the conditions on the ranches and sugar plantations where some will end up as migrant workers and countless small details that lend the text an authentic sense of place The narrative moves loosely through space and time events usually hinge around a shifting expansive present tense We meet a character and are promptly told what will happen to them months or years in the future later in the novel we encounter them at another time and in changed circumstances without entirely knowing what happened in between This nonlinear temporality is characteristic of Mora's writing and suggestive of how trauma flattens time and distorts memory The central plot of the novel concerns a journalist Juan Angel who has traveled to the borderland to write a story on a mysterious guerilla leader We learn that he attempted to write a kind of crónica or literary journalistic piece about the region before giving up and focusing on a straightforward feature story It's revealed that many sections of the novel

including this excerpt are part of the failed crónica. With this narrative framing device, Mora creates another layer of symmetry in his diptych: the style continually oscillates between free-flowing prose-poetry, the crónica, and a tighter realism that relates Juan Angel's investigations. This collating of heterogeneous styles results in a work that straddles the line between tradition and avant-garde. Bernardo Navarro Villarreal, *writing in Latin American Literature Today*. The book was a finalist in Spain's 2019 Martín Fierro competition for novels of social criticism. It is the first volume of a planned trilogy. Alex Halatsis
