sustainable resource management but for societal stability in general Despite this connection the knowledge and experience gained in the fields of conflict transformation and peacebuilding in the last decades are often not used by natural resource managers One reason is that this knowledge has not been translated into user friendly resources that can be easily understood by practitioners without prior experience in these fields This handbook and toolkit helps fill this gap providing an orientation to the issues and a suite of practical exercises and tools to support participatory processes *International Notices to Airmen* ,1979 **The Foundation Directory** ,2007 **Classified Index of Dispositions of ULP Charges by the General Counsel of the National Labor Relations Board** United States.
