Loads of Money: Guide to Intelligent Stock Market Investing Dr. Tejinder Singh Rawal, 2018-12-20 This book will mentor you to a path of investment success where lie riches beyond imagination. If you picked up this book to find get rich quick formula, you are in for a disappointment. This book instils in you the fundamental philosophy required to make money with high certainty and with least risk. It is the same philosophy that has made Warren Buffett the most successful investor. It will help you with the wisdom of the best investors of all times that's distilled and presented in a format that anyone with no previous experience in investment can master and profit from it. It guarantees you success and the techniques are simple to apply. The author, who made his first investment at age sixteen, believes that investment success comes not to those with a PhD in finance but to those with the right mind set. Trying to get rich quick is dangerous. To make a fast buck, you need to speculate and gamble. A price surge results in quick, handsome gains, but a fall may wipe off your fortune. Investing is all about taming your emotions, and this book teaches you that. If you want to read only one book as a complete investing guide, this is that book.

Better Money Lawrence H. White, 2023-03-23 The recent rise of dollar, pound and euro inflation rates has rekindled the debate over potential alternative monies, particularly gold and Bitcoin. Though Bitcoin has been much discussed in recent years, a basic understanding of how it and gold would work as monetary standards is rare. Accessibly written by a pioneering economist, *Better Money* explains and evaluates gold, fiat and Bitcoin standards without hype. White uses simple supply and demand analysis to explain how these standards work, evaluating their relative merits and explaining their response to shocks, allowing for informed comparisons between them. This book addresses common misunderstandings of the gold standard and Bitcoin, using historical evidence to review the history of money, with emphasis on the contest between market and government provision. Known for his work on alternative monetary institutions, White offers a reasoned discussion of which standard is most likely to provide a better money.
