An indispensable guide to modern innovation and entrepreneurship. Walter Isaacson, no. 1 bestselling author of *Steve Jobs*. Perfect for readers of *Elon Musk* by Ashlee Vance and *Zero to One* by Peter Thiel. Out of PayPal's ranks have come household names like Elon Musk, Peter Thiel, Max Levchin, and Reid Hoffman. Since leaving PayPal, they have formed, funded, and advised the leading companies of our era, including Tesla, Facebook, YouTube, SpaceX, Yelp, Palantir, and LinkedIn, among many others. Yet for all their influence, the incredible story of where they started has gone largely untold. In *The Founders*, award-winning author Jimmy Soni narrates how a once-in-a-generation collaboration turned a scrappy start-up into one of the most successful businesses of all time. Facing bruising competition, internal strife, the emergence of widespread online fraud, and the devastating dot-com bust of the 2000s, their success was anything but certain. But they would go on to change our world forever. Informed by hundreds of interviews and unprecedented access to thousands of pages of internal material, *The Founders* explores how the seeds of so much of what drives the internet today were planted two decades ago. **The Complete Idiot's Guide to Couponing** Rachel Singer Gordon, 2012-04-03 Combines couponing advice with up-to-date online coupon tips and a sensible approach. *The Deals that Made the World* Jacques Peretti, 2017-07-27 The book to read. GQ A revelatory book. John Lewis Stempel. While the laws that guide our lives are written by the politicians we elect, much of the world around us, from the food we eat to the products we buy to the medications we take, is shaped by private negotiations and business deals few of us know about. For twenty years, Peretti has interviewed the people behind the decisions that have altered our world, from CEOs of multinational corporations to politicians, economists, and scientists. In *The Deals that Made the World*, Peretti draws on his vast knowledge to reveal a host of fascinating and

startling connections from how Wall Street's actions on food commodities helped spark the Arab Spring to the link between the AIDS epidemic in 1980s San Francisco and the subprime mortgage crisis of 2008. He proves a sure guide combining both eye-opening on the ground reporting and a narrative flair that makes esoteric financial and business concepts clear and understandable. Like Steven Levitt, Nassim Nicholas Taleb, Brad Stone, Michael Lewis, and Malcolm Gladwell, Peretti takes the ordinary and turns it inside out to give us a compelling new perspective on our lives and our world.

Schaefer, 2018 **Responsible Business** Olaf Dilling, Martin Herberg, Gerd Winter, 2008-07-01 With the globalisation of markets the phenomenon of market failure has also been globalised Against the backdrop of the territoriality of nation state jurisdictions and the slow progress of international law based on the principle of sovereignty this poses a serious challenge However while the legal infrastructure of globalised markets has a firm basis in formal national and international law the side effects of economic transactions on public goods such as the environment human health and consumer interests often escape state based regulation Therefore attention is drawn to the potential of self regulation by transnational industry While hypotheses abound which try to grasp this phenomenon in conceptual terms both empirical and legal research is still underdeveloped This volume helps to fill this gap in two ways firstly by reconstructing self regulatory settings such as multinational corporations transnational production networks and industry NGO partnerships in terms of organisation problem solving and legitimation and secondly by linking their empirical findings to formal law by examining how legal concepts are reflected in self regulation how the law builds on self regulatory solutions and how it helps to establish favorable conditions for private governance *Economics of Strategy* David Dranove, David Besanko, Mark Shanley, Scott Schaefer, 2017-07-17 This text is an unbound three hole punched version
