Debt Demands Kristin Collier, 2025-11-18 A powerful memoir of a woman plunged into fraudulent debt that explores America's broken student loan system and illuminates the ways that debt shapes every aspect of our lives At 22 years old Kristin Collier was on the verge of college graduation applying for a credit card to cover expenses before her teaching career began But to her shock she learned that she didn't qualify for even the lowest line of credit In fact she had a shocking amount of debt already a handful of credit card debts and dozens of private student loans which she'd known nothing about In total

she owed over 200 000 How could this have happened What Debt Demands is a nuanced and poignant meditation on indebtedness and its consequences Kristin paints a vivid portrait of her own experience with personal debt navigating the complex student lending system alongside her evolving relationship with the person who stole from her a family member she loved and trusted Weaving in interviews with student borrowers historical analysis cultural critique and research into the higher education system she reveals debt s profound impact on every aspect of our lives our relationships and our world As Kristin explores how and why our nation arrived here and what it will take to heal her own financial and familial wounds What Debt Demands illuminates the unjust world that already exists and points to a better one a world where all students regardless of race or wealth can access free education And one in which we are not bound to the state but to each other
