The Pregnancy Experience McKenzie Nelson,2024-08-07 In 2023 there were about 368 000 births daily in the world With today s scientific competencies every single one of those people was birthed by a woman So why is there still so much mystery involved in the process Your body is hardwired to do this but that doesn t mean you have any idea what you re about to go through Why did I not know what to mentally prepare myself for during the growth and delivery of my baby Why did I have no idea what would happen to me at the hospital Why did I think my body was done with baby things after forty weeks Why has the normal for advice passed down woman to woman about pregnancy become Yes it ll hurt but you don t remember that in the end or four hundred plus page books that take forever to read and are more biology than helpful tips And why have we as a society written that off as okay We would never expect someone to go into a new job with little to no instruction And when a new employee asks hard hitting questions in detail and points out faults in the process for correction we give them an award we don t pointedly avoid their questions and tell them this is how things are So why are so many women expected to go into the hospital blind not having any idea what to expect during their delivery besides you push and a baby pops out You are going through a fast paced life altering experience so you need a fast paced guide on what to expect for the near future and what you should know to expect from your body and mind during this wonderful experience The birth of my child was fully worth everything I went through in this book however I could have experienced less fear anxiety and emotional strain with my husband during my pregnancy had I known what to expect and prepare for from preconception to postbirth normalcy

Professor Lundy's Guide to Rock Music Connoisseurship Duane Emerson Lundy,2023-10-20 This empirical and theoretical book should be of interest to anyone who dares to consider the contentious topic of measuring and justifying aesthetic value in music as well as the issue of how experts compare to nonexperts in terms of aesthetic fluency aesthetic sensitivity and aesthetic judgment in appraising music The book should be both practical and personal for anyone who has a music collection and loves to see it grow continuously but wisely What makes someone an expert The key issue tackled here is how one develops into such a connoisseur of music Overall the book should spark much healthy debate about rock music quality and aesthetics in general both among scholars of aesthetics and the musically passionate general public Many of the ideas for connoisseur development for music could also be applied to appraisal in other areas of aesthetics beyond music such as films visual art or literature Words of Praise Professor Lundy s Guide to Rock Music Connoisseurship is simply fantastic It is written with elegance eloquence and passion His vast knowledge of rock n roll will enlighten every reader and his enthusiasm for this topic is infectious The book is designed to be comprehensible to any reader but also carefully cited to please the most demanding scholar He successfully aims to teach the reader how to become expert in evaluating the aesthetic quality of music using a precision system to guide us into deeper and defensible judgements on what pieces of music are the best and which are the worst This is a beautiful book that enriches the heart and brightens the mind Rhett Diessner Professor Emeritus of Psychology Lewis Clark State College author of Understanding the Beauty Appreciation Trait Empirical Research on Seeking Beauty in All Things Aesthetic judgments of music are important but poorly understood To the everyday listener they may seem arbitrary or otherwise inexplicable In this book Professor Lundy offers an unashamedly positive view on aesthetic judgments emphasizing their rational nature and showing how various non aesthetic biases that do exist can be minimized The result is a joyful celebration of music science and connoisseurship which is sure to spark further interest and debate on this fascinating topic Professor Patrik N Juslin
