Broadband Policies for Latin America and the Caribbean A Digital Economy Toolkit OECD,Inter-American Development Bank,2016-06-22 This joint initiative by the Inter American Development Bank IDB and the OECD seeks to encourage the expansion of broadband networks and services in the region supporting a coherent and cross sectorial approach to maximise their benefits for economic and social development Risk Management in Outer Space Activities Maria A. Pozza,Joel A. Dennerley,2022-02-09 Risk Management in Outer Space Activities assesses selected risks associated with space activities from an Australian and New Zealand perspective The book explores the rise of commercial space activities and considers the development of Australia and New Zealand s regulatory frameworks and how they are equipped to address new and emerging risks in the space sector The book examines the juxtaposition of international space law against the domestic legal regimes of Australia and New Zealand and how these regulatory frameworks are designed to create governance mechanisms to control space risk Both national jurisdictions approach space risk from the perspective of liability and international legal obligations but as a result of their different historical space trajectories their risk approaches differ This is illustrated by

research that suggests that from an Australian point of view much of its space industry development has been influenced by Cold War era military and national security concerns On the other hand the New Zealand perspective is grounded on the rapid market led commercial development that is currently underway in the country The book examines a variety of risks that can and do emerge in the course of undertaking space activities It does this by presenting a series of space risk case studies There are chapters devoted to examining commercial space risks space insurance the risks posed by space debris cybersecurity and space assets light pollution as a risk for astronomy and the risks inherent in landing objects on the Moon The work contained in this book is intended to provide a clear practical and informed approach to understanding risk management in outer space activities It will appeal to policy makers risk professionals space lawyers national space agencies as well as academics researchers and students

**The Covid-19 Pandemic:** Jamilah Kebbey, 2022-01-20 Birds chirped in the air flowers bloomed and campuses were full of life with students walking to and from class chatter and laughter in the air A few months later the world stopped It was the middle of March 2020 Everything changed and students found themselves in the midst of a global pandemic Jamilah was a ninth grader in Pennsylvania when the COVID 19 pandemic first started She attended brick and mortar schools all her life but now things were drastically different as remote learning began Initially it was nice to have a couple additional days off after spring break but as the two month mark approached Jamilah and her classmates missed social interaction They missed friendly chats in the hallways and being face to face with their teachers and classmates They missed the cafeteria extracurricular activities and team sports They suffered unprecedented effects in that unprecedented time Now Jamilah shares her own experiences and observations from the worst of the COVID 19 pandemic
