Old Town Road Chris Molanphy, 2023-10-06 In Old Town Road Chris Molanphy considers Lil Nas X's debut single as pop artifact, chart phenomenon and cultural watershed. Old Town Road was more than a massive hit with the most weeks at No. 1 in Billboard Hot 100 history. It is also a prism through which to track the evolution of popular music consumption and the ways race influences how the music industry categorizes songs and artists. By both lionizing and satirizing genre tropes, it's a country song built from an alternative rock sample, a hip hop song in which nobody raps, a comical song that transcends novelty and a queer anthem. Lil Nas X troubles the very idea of genre. Ultimately, Molanphy shows how Old Town Road channeled decades of Americana to point the way toward our cultural future.

SNAP Katherine Ramsland, 2012-02-21 Sudden flashes of inspiration have triggered many discoveries and inventions throughout history. Are such 'aha' moments merely random, or is there a way to train the brain to harness these seemingly unpredictable creative insights? This fascinating overview of the latest neuroscience findings on spontaneous thought processes or 'snaps' describes how everyone, not just geniuses, can learn to improve the likelihood of their own 'eureka' moments by adopting certain rewarding attitudes and habits. As the author explains, snaps are much more than new ideas. Snaps are insights plus momentum; they instantly compel or snap us toward action. They often occur after ordinary problem solving hits an impasse. We may feel stuck, but while we're in a quandary, the brain is rebooting. Then, when we least expect it, the solution pops into our heads. She describes the results of numerous scientific experiments studying this phenomenon. She also recounts intriguing stories of people in diverse disciplines who have had a snap experience. Both the research and the stories illustrate that it's possible to enhance our facility for snap moments by training ourselves to scan, sift, and solve. In the emerging economy, businesses and individuals need new strategies, and it's clear that just thinking harder no longer works. People who can snap are often a step ahead; they have a vigilance advantage from exercising brain cells that build mental agility. While snapping is rewarding, fun, and good for improving our mental skills, it's also much more: people who snap life-changing ideas that affect many others will redirect our future. Written in an accessible, jargon-free narrative that weaves together the latest research with illuminating stories of innovative people, this book teaches us how to cultivate our own inner epiphanies to gain an edge in our imaginations, our careers, our goals, indeed in every aspect of our lives.

Mobile Story Making in an Age of Smartphones Max Schleser, Marsha Berry, 2018-04-07 The participatory turn in media arts and design, along with interrelated developments in the proliferation of social and network media, have changed our understanding of the contemporary mediascape. Mobile Story Making in an Age of Smartphones reveals how smartphones and storytelling are forming a symbiosis that empowers twenty-first-century citizens and creatives around the world. The edited collection further develops definitions and debate around creative mobile media and its impact on media art and design. It brings together mobile artists, digital ethnographers, filmmakers working with smartphones, illustrators, screenwriters, as well as musicians utilizing apps and mobile devices who

explore new directions in the creative arts with a focus on screen production Lastly it demonstrates how mobile devices and smartphones can make a difference in peoples lives and catalyses creativity in order to tackle current socio cultural issues
