Toward Assessing Business Ethics Education Diane L. Swanson,Dann G. Fisher,2010-11-01 Toward Assessing Business Ethics Education edited by Diane L Swanson and Dann G Fisher of Kansas State University is a sequel to their book Advancing Business Ethics Education in the Ethics in Practice IAP book series The focus on assessment in this second book is a timely response to the urgent search among business schools for ways to teach and assess ethics at a time when the public's faith in corporations and business schools has been undermined greatly by the failure of both to respond to widespread corruption and scandals in the business sector Although no one expects business education alone to resolve these problems the distinguished scholars represented in this book advocate that business schools should at least do their part by exposing their students to decision models that incorporate ethical dimensions on behalf of corporate stakeholders and society at large As the book's title conveys it is then important to assess key learning objectives to insure that business students graduate knowing ethics fundamentals and armed with the ability to recognize ethical dilemmas and possible solutions during the course of their careers This book will speak to all who are interested in accountability for business ethics education especially business school deans university administrators faculty members students and prospective employers This audience will find that the enterprise of assessing business ethics education is advanced in three ways First the book functions as a venue for distinguished scholars to share the innovative ways that they are assessing ethics coverage in courses and degree programs Second these authors identify what needs to be assessed and the means for doing so Third the book serves not only as a guide to assessment but also as a platform for expanding and improving ethics coverage in business schools Moreover an important take away for readers is the provision of a simple formula first advocated by Diane L Swanson and William C Frederick University of Pittsburgh in 2005 for delivering ethics education that minimizes assessment errors By following this formula business schools can provide assurances that ethics will not be assessed as being sufficient when it is woefully inadequate or even missing in the curriculum and that it cannot be distorted diluted or trivialized by uninformed coverage and still pass inspection Avoiding these assessment errors is critical in an educational environment in which weak accrediting standards for ethics go hand in hand with spotty uniformed coverage that would not be tolerated for other business disciplines

Japanese and Polish Managers Sławomir Banaszak,Kazunobu Oyama,2023-03-06 This publication is devoted to management in modern economies and the place and role of managers in contemporary societies The contributors show the complex problems of managing organisations from the perspective of two countries Japan and Poland The comparison brings fascinating conclusions about the essence of management and economic social and cultural capitals present in these seemingly distant two worlds However a more detailed analysis also shows similarities in the functioning of managers modern leadership the social role of a manager and the capitalist economy and post capitalist society of Japan and Poland The editors of this book have been cooperating for

several years they are trying to combine economic and sociological perspectives in research on contemporary capitalist economies and modern postcapitalist societies *Elite MBA Programs at Public Universities* Mimi Wolverton, Larry Penley, 2004-11-30 Business education programs should practice what they preach applying the principles of strategic analysis to play to their strengths and develop distinctive offerings that attract the most profitable customers in this case students faculty local communities and the institutions that support them financially With the costs of private MBA programs skyrocketing public universities which generally operate out of the spotlight of the Harvards and Whartons have a tremendous opportunity to distinguish themselves as centers of innovative high quality education Mimi Wolverton and Larry Penley conducted extensive research to identify the qualities of those public institutions across the country from the University of Washington to Georgia Tech that have successfully established competitive advantages generally through a combination of cost leadership differentiation and focus *Elite MBA Programs at Public Universities* features 12 in depth case studies by senior representatives of the respective institutions detailing the process by which they developed and launched programs to raise their profiles and ultimately compete aggressively for talent and support From developing strategic alliances with local businesses and complementary academic departments to establishing online and overseas courses to investing in state of the art facilities these schools are setting new standards for business education and measuring the positive results for example in terms of increased funding higher faculty research productivity higher rankings and greater student diversity Wolverton and Penley frame the case studies by applying the concepts of strategy theory drawing lessons that can be applied in other educational institutions as well as for students of strategy and general readers interested in emerging trends in business education The result is a fascinating peek behind the scenes at the most innovative MBA programs as well as a rich canvas for observing the principles of strategic management in action [Zur Elite bitte hier entlang](#) Anna Lehmann, 2016-04-11 Kinder sollten den besten Start ins Leben haben Die Wahl der besten Bildungseinrichtung ist daher ein Thema das nahezu alle Eltern besch ftigt Viele Eltern tr umen davon dass ihre Kinder ber die bestm gliche Bildung zu den Entscheidern von morgen dazugeh ren Deutlich wird dies am ungebrochenen Ansturm auf private Bildungstr ger Doch was ist eigentlich die nicht unumstrittene Elite Und wo lernt sie heute tats chlich Welche Kaderschmiede garantiert eine erfolgreiche Karriere und welche Schule ebnet dem Kind den Weg nach oben am besten Anna Lehmann hat etliche Interviews mit Eltern Lehrern und Schulleitern gef hrt und die einschl gigen Bildungseinrichtungen Schulen Internate und Hochschulen genau unter die Lupe genommen darunter nicht nur private sondern auch staatliche Tr ger mit exzellentem Ruf Ihre Portr ts der Bildungseinrichtungen bieten zudem einen detaillierten berblick ber bekannte und auch eher unbekannte Topadressen *From Higher Aims to Hired Hands* Rakesh Khurana, 2010-03-22 Is management a profession Should it be Can it be This major work of social and intellectual history reveals how such questions have driven business education and shaped American management and society for more than a century The book is also a call for reform Rakesh Khurana shows

that university based business schools were founded to train a professional class of managers in the mold of doctors and lawyers but have effectively retreated from that goal leaving a gaping moral hole at the center of business education and perhaps in management itself Khurana begins in the late nineteenth century when members of an emerging managerial elite seeking social status to match the wealth and power they had accrued began working with major universities to establish graduate business education programs paralleling those for medicine and law Constituting business as a profession however required codifying the knowledge relevant for practitioners and developing enforceable standards of conduct Khurana drawing on a rich set of archival material from business schools foundations and academic associations traces how business educators confronted these challenges with varying strategies during the Progressive era and the Depression the postwar boom years and recent decades of freewheeling capitalism Today Khurana argues business schools have largely capitulated in the battle for professionalism and have become merely purveyors of a product the MBA with students treated as consumers Professional and moral ideals that once animated and inspired business schools have been conquered by a perspective that managers are merely agents of shareholders beholden only to the cause of share profits According to Khurana we should not thus be surprised at the rise of corporate malfeasance The time has come he concludes to rejuvenate intellectually and morally the training of our future business leaders

front cover image might refer to Andy Warhol's iconic pop art consumerism or simply the tastiness of the contents the tin cans hold a little like the insights in this magazine if I dare say And lastly the shades of green to the cans give the message that our consuming society might well contain a new and more responsible sustainable taste to it In any case we hope you download this Global Voice 21 issue open it up and consume its insights with immoderation Enjoy your reading
