Systematic Approaches to Mental Health Care and Promotion Bach Tran,Roger C. Ho,Brian James Hall,2020-06-05 Globally mental health problems remain as one of the largest contributors to the population burden of diseases According to WHO common mental disorders including depression and anxiety affect the health of about 9% of the world s population and account for over 10% of the total years lived with disability In many parts of the world the number of people with mental health disorders has been increasing fueled by a rapid population growth and aging as well as urbanization and immigration It is estimated that 80% of these non fatal diseases occurred in low and middle income countries However in such settings coverage of both preventive and curative services is still very limited Diversity in socio cultural backgrounds and limited capacity of local health care systems are emphasizing the importance of systematic

approaches to understanding and intervening in the issue Although the social economic and health burden of mental health issues are substantial effectiveness of policies and interventions is varied across regions and largely driven by contextual factors Evidence based prevention and treatment approaches involve the synthesis of epidemiological surveys assessment of clinical populations e g chronic medical diseases chronic psychiatric illnesses and studies exploring the role of biological markers in psychiatric illnesses This Research Topic aims to introduce the latest research findings on the application of system thinking in Mental Health Care and Promotion

Educational Dilemmas Luca Tateo, 2019-01-18 Educational Dilemmas uses cultural psychology to explore the challenges contradictions and tensions that occur during the process of education with consideration of the effect these have at both the individual and the collective level It argues that the focus on issues in learning overlooks a fundamental characteristic of education that the process of educating is simultaneously both constructive and disruptive Drawing on research from Europe America and Asia chapters in this volume present and analyse different experiences of the tension between disruption and construction in the process of education Situating educational discontent within the wider context the book demonstrates how this issue can be exacerbated by the tension between the commodification and democratisation of educational systems This book demonstrates that these issues permeate all levels of education and as a result emphasises how vital it is that educational discontent is considered from a new perspective Educational Dilemmas is essential reading for academics researchers and postgraduate students in the fields of psychology and education It should also be of great interest to school psychologists teachers and therapists
