Schor,2025-06-03 Bestselling author leading sociologist and economist Juliet Schor makes the case for a four day work week persuasively showing how this model can address major challenges such as burnout AI and the climate crisis and how employees companies and governments can work together to make it a reality Around the world long hours and intense pressure are taking their toll When the pandemic hit in 2020 work induced stress and burnout skyrocketed Many reached a breaking point Now three quarters of the world s employees are disengaged and struggling including in the US and Canada where half are experiencing high levels of daily stress Our current work culture the five day forty hours a week model which has gone unchanged for nearly a century is failing But a remedial countertrend has emerged the four day work week Kickstarter Bolt Basecamp ThredUp and hundreds of other employers have eliminated the fifth day of work successfully figuring out how to maintain productivity while seeing remarkable improvements in employee well being Hiring is easier and fewer people are quitting These results are global Working a four day week people feel energized capable and more optimistic about their lives and their jobs Four Days a Week is the first large scale study of this trend Juliet Schor an expert who has researched and written about work for more than four decades beginning with her New York Times bestseller The Overworked American in 1992 shares her pioneering analysis of the benefits of a shorter work week how companies can achieve them why the concept has taken so long to emerge and gain acceptance and why doing so will help a company s employees and its bottom line The book is a blueprint for implementing a change that once seemed radical but is now within reach

Learners Without Borders Yong Zhao,2021-06-30 The future of education centers empowered students in a global learning ecosystem Despite decades of reform the traditional borders of education graduation curriculum classrooms schools have failed to deliver on the goals of excellence and equity Despite massive societal changes education remains controlled by an old mindset It is time to change that limiting mindset and more importantly the ineffective practices in education To truly serve all learners future classrooms must remove the boundaries of learning and become student centered culturally responsive and personalized supportive and equitable environments where each student can direct their own learning and seek multiple pathways to skills and knowledge in a global learning ecosystem This compelling call for transformative change offers all involved in education Evidence based arguments that reveal the need to break the traditional borders that limit learning Strategies to personalize learning and remove the confinement of traditional pathways Examples from around the world to create equitable and student centric learning environments Resources for creating a school learning environment that expands opportunities for personalized learning into the global learning ecosystem It is time to now imagine a different kind of learning without borders and to begin the shifts in practice that will result in personalized learning for all students

Popular Photography ,1983 Information Technology and Organizational Learning Arthur M. Langer,2023-11-16 Because digital and information technology IT has become a more significant part of strategic advantage and workplace operations information systems personnel have become key to the success of corporate

enterprises particularly with the pursuit of becoming more digital This book focuses on the vital role that technology must play in the course of organizational development and learning and on the growing need to integrate technology particularly digital technology fully into the culture of all organizations Fundamentally this fourth edition takes an even stronger position than the previous editions that organizational learning is crucial to the success of what has been coined digital transformation Companies are struggling to understand what it means to be digital Their technology personnel go far beyond the traditional IT staff into areas such as artificial intelligence AI machine learning ML and natural language processing NL These three functions now fall under the auspices of data science which is now at the center of allowing companies to become more data dominant as is necessary for survival While traditional IT personnel have long been criticized for their inability to function as part of the business they are now vital to assist in the leadership of digital transformation It could be a costly error to underestimate the technical skills needed by IT staff to ensure successful digital transformation In fact subsequent chapters will highlight the technical challenges needed to build new architectures based on 5G blockchain cloud computing and eventually quantum processing The challenge then is to integrate business and technical IT staff via cultural assimilation and to strategically integrate advanced computing architectures This fourth edition includes new topics such as the future of work that addresses the challenges of assimilating multiple generations of employees and how to establish working cultures that are more resilient and adaptive and can be configured as a platform driven by data assets
