Copyright and Anonymity in the Creative User-Generated World Rachel Maguire, 2025-05-01 This book explores the
relationship between copyright law online anonymity and creative user generated content CUGC Presenting original
empirical findings the book evaluates the co existence of copyright law and normative systems regulating a CUGC landscape
made up of artists photographers and writers and makes novel recommendations for copyright reform It takes a multi
jurisdictional approach across Anglo American and EU legal systems using the UK USA and Germany as representative
jurisdictions for legal analysis Qualitative findings are drawn from creators and communities on Reddit and 4chan Copyright
subsists in much CUGC but pervasive anonymity makes it difficult for the law to regulate it effectively Simultaneously
anonymity offers creative benefits in a way that highlights flaws in traditional justifications of copyright Comparisons
between community norms and copyright law identify practical differences but also fundamental compatibilities in terms of
ownership expectations However the simultaneous existence of legal and normative enforcement mechanisms complicates
matters for creators and potential users with negative implications for creativity and copyright law While existing reform
efforts have made suggestions to create a UGC exception these overlook and undermine the role of CUGC creators as
copyright holders This can be addressed through the consideration of a framework of supplementary CUGC guidelines when
developing such reforms This valuable resource for researchers and students provides a distinct perspective in framing
CUGC creators as copyright holders examining online anonymity as a pivotal factor influencing regulation **Artificial
