Training and Development in Transnational Higher Education Morris, Gareth, Ye, Jinting, 2025-04-23 In an era of increasing globalization institutions of higher education are no longer bound by national borders With the globalization of higher education there is a growing need for further training and development among higher education educators Teachers as well as their students encounter challenges relating to English for Academic Purposes EAP and the vast diversity in the classroom By actively seeking professional development transnational educators may enhance their own teaching competencies and careers in addition to student engagement coping strategies and critical thinking skills Training and Development in Transnational Higher Education highlights the importance of training and development within various areas including curriculum design multicultural competency and self evaluation Covering topics such as character education university partnerships and gender dynamics this book is an excellent resource for educators school administrators educational leaders curriculum developers professionals researchers scholars academicians and more

Handbook of Research on Teaching With Virtual Environments and AI Panconesi, Gianni, Guida, Maria, 2021-02-19 The increasingly pervasive use of digital technology has catapulted society into an interconnected world where the natural boundaries between humankind and machine virtual and real individual and community have become less perceptible As individuals interact with different digital technologies they must build a digital intelligence which must be further cultivated as it is a key competency for the future of school and work Digital intelligence includes understanding the mutual strengths between people and technology as well as developing an awareness in the use of digital tools in order to avoid common threats such as cyberbullying addiction to video games techno stress and more As adolescents continue to engage with virtual reality and 3D virtual worlds where the online and offline overlap and coincide it is important to build this intelligence as well as utilize these technologies to promote successful learning The Handbook of Research on Teaching With Virtual Environments and AI explores the new personalized educational opportunities that are available with digital technology and virtual environments that can be used within education This book focuses on the use of these tools and how to navigate the use of new technologies such as AI and virtual environments for educational practices While highlighting topics such as virtual worlds game based learning intelligent tutoring augmented reality and more this book is ideal for teachers administrators technologists educational software developers IT specialists practitioners researchers academicians and students interested in how virtual environments and AI are being implemented in teaching practices

Defamation in the Digital Age and the 'Right to be Forgotten' Fiona Brimblecombe, 2025-10-30 With 98 per cent of UK households online and over 4.9 billion social media users globally the potential for individuals to spread defamatory content has surged This compelling book considers the effects of the digital era on English defamation law Exploring the challenges posed by affordable technology viral sharing and technological advancements such as AI the book highlights the complexities claimants face in the current

environment Offering invaluable guidance for navigating this rapidly evolving legal landscape the book explores the way defamation relates to and intertwines with data protection law and particularly with the UK GDPR s right to be forgotten
