Anxiety in Middle-Class America Valérie de Courville Nicol, 2021-07-29 Showing how Americans have massively turned to a self help empowerment model to manage chronic feelings of insecurity Anxiety in Middle Class America explains why no group has ever been as anxious about anxiety and interested in tackling it as a moral and personal problem Anxiety is the focus of increasing preoccupation and intervention in middle class America and the late modern world It is reportedly the most common mental illness in the United States affecting almost a quarter of its adult population every year Views diverge on what this means This work is for readers who are intrigued by the exponential rise in reported rates of anxiety across the lifespan and by all the talk about anxiety dissatisfied with non sociological and symptom based accounts of mental health and open minded enough to consider the self help phenomenon as more than an oppressive craze driven by capitalist industry neoliberal ideology complicit publishers formulaic writers and irreflexive consumers In providing a sociologically informed account of some of the most widespread emotional troubles of late modern life and the unique historical pressures that promote them this work will be of interest to researchers in a broad range of fields from sociology anthropology and mind body society studies to cultural history communications and social philosophy It will also interest mental health professionals and cultural critics

The Anxiety Relief Program Dennis Radha-Rose, 2004-07-01 You can't stop the waves of anxiety but you can learn to ride them Everybody has anxiety in the face of threats and dangers and this is a perfectly natural reaction But sometimes anxiety or a particular worry can get out of control and develop into chronic and excessive worry panic attacks phobia obsession or other forms of anxiety disorder In this book each of these anxiety disorders is described from the point of view of the reader who experiences them rather than from that of psychologists or neurophysiologists whose explanations of how the brain functions in anxiety are not usually helpful to the sufferer You will gain insight into your own personal anxiety problems and learn how to cope with them yourself without medication by carrying out exercises selected for their effectiveness With an understanding of your anxieties and with the help of questionnaires you will create a personal program to bring anxiety under control
