Money, Power, Respect Macaela MacKenzie, 2023-06-27 An inside look at how women athletes are leading the fight for equality on and off the field Women's sports receive a fraction of the airtime allotted for men's sports as well as a fraction of the marketing dollars media coverage and training resources For every dollar that the NBA's highest paid player brings home the WNBA's highest paid player earns just half a cent But while misogyny in sports is particularly visible it's not unique Women athletes face the same sexist barriers found in all career fields the motherhood penalty transphobia and misogynoir underpromotion and more But women in sports are fighting back debunking myths that women aren't as skilled competitive or capable of generating revenue as men Drawing on exclusive interviews with prominent athletes including Allyson Felix Megan Rapinoe and Billie Jean King journalist Macaela Mackenzie shows how women are using sports as a platform for change As women athletes push for the same things all women want in their careers money power and respect their wins are showing the rest of us what's possible in the fight for equality

The Person in Personalisation David Mannheim, 2023-08-29 As both practitioners of personalisation and victims of it it is the person in personalisation that has been lost The titans of the personalisation industry have commercially defined what personalisation should be for us all without realising what it takes to make a relationship work a personal touch This book explores why And if it can change We learn about why we need to dismiss the personalisation perpetual hype stop reducing it down to a single tactic designed purely to make money Instead we need to rebirth personalisation entirely and engage deeply with what it actually is what it's supposed to be and what it means in the future for brands great and small Maybe even yours This book is not like most marketing books overly inspirational redundant with revelation cold and charmless focusing on dry practicality with arbitrary models that no one can ironically use practically This is different Personalisation spelled with an s is full of personality wonder drama heroes and villains and that all makes for a damn good story A fairy tale even That's how it is written *The Person in Personalisation* is an adventure that inspires action from promoting critical thinking with irreverent humour defeating personalisation dragons no really encouraging you the reader to take things back to basics not from telling you exactly what to do
