Musicking TikTok Juan Bermúdez, 2024-12-12 This ethnographic work about TikTok's musicking in a global Austrian context complements and builds upon ethnomusicological assumptions, theories, and methods for the study of musical practices in digital spaces. An overview of elements that make up TikTok's interface as well as the technical performative possibilities that it allows, this book introduces a general categorization of existing performance types and how TikTok users appropriate the platform to make their music. It illustrates how some TikTok users became aware of and began using TikTok and it reviews some of the different strategies TikTok users apply to learn how to use the application and successfully develop their performances. Bermúdez explores how performers move from being ordinary users to becoming TikTok users, developing and performing an identity he calls TikTok Persona. Moreover, he discusses how some TikTok practices can and have occurred across multiple interconnected platforms and he examines how localities are articulated and negotiated in these contexts. Bermúdez argues for an understanding of musicking as a multimedia practice that different actors create and experience individually in everyday synchronous and asynchronous physical and digital situations. The so-called TikTok users create a sense of identity and community through their performances. This study suggests that a digital performance can be, aside from a representation of reality, an integral part of it, serving as a fundamental space for constructing and performing identity.

Tik-Tok John Sladek, 2011-09-29 A Robot shall not injure a human being or through inaction allow a human being to come to harm. That's Asimov's celebrated First Law of Robotics. And in the 21st century, all domestic robots are programmed according to that Law. But something had gone terribly wrong with Tik Tok's Asimov circuits, and he sets out to injure as many people as possible, preferably fatally, while maintaining the exterior of a mild-mannered artist and a sincere campaigner for robot rights. So like any self-respecting crook and murderer, he moves into politics, becoming the first robot candidate for Vice President of the United States. Tik Tok follows his maniacal progress from humble beginnings to the top of the heap, or almost. Because in his devious cunning, there was one element that Tik Tok had forgotten: Winner of the BSFA Award for best novel 1983.

Narrative Theory in Journalistic Practice Yngve Benestad Hågvar, Harald Hornmoen, Jørgen Alnæs, 2025-11-28 Narrative Theory in Journalistic Practice provides innovative analytical frameworks for examining journalistic narratives in today's digital multimodal media landscape. The volume expands beyond traditional models focused on linear texts to address contemporary formats across multiple platforms. Through empirical analyses of genres such as immersive long form stories live news reports social media news podcasts and still images the book explores the dual function of journalistic narratives they are suited to engage readers in both trivial and complex events and issues but will also advance certain interpretations of reality and downplay others. The book conveys a critical and constructivist view on narratives showing how journalistic stories contribute to shaping people's understanding of reality but also how media users play an active role in interpreting the narratives. The volume will interest students and scholars of journalism media studies and narrative studies. It is intended for use by graduate students as well as by established researchers.

The Aftermath Philip Bump, 2023-01-24 Philip Bump helps us understand that no matter the troubles of our days the future of this nation rests with what we do now. And that means all of us not just Baby Boomers. Eddie S. Glaude Jr. James S. McDonnell Distinguished University Professor Princeton University. A popular Washington Post columnist takes a deep dive into what the end of the baby boom means for American politics and economics. Philip Bump a reporter as adept with a graph as with a paragraph is popular for his ability to distill vast amounts of data into accessible stories. THE AFTERMATH is a sweeping assessment of how the baby boom created modern America and where power wealth and politics will shift as the boom ends. How much longer than we'd expected will Boomers control wealth? Will millennials get shortchanged for jobs and capital as Gen Z rises? What kind of pressure will Boomers exert on the health care system? How do generations and parties overlap? When will regional identity trump age or ethnic or racial identity? Who will the future GOP voter be and how does that affect Democratic strategies? What does the Census get right and terribly wrong? The questions are myriad and Bump is here to fight speculation with fact. Writing with a light hand and deft humor Bump helps us navigate

the flood of data in which our sense of the country now drowns He fits numbers into a narrative about who we are including what we really means how we vote where we live what we buy and what predictions we can make with any confidence We know what will happen eventually to the baby boomers What we don't know is how the boomer legacies might reshape the country one final time The answers in this book will help us manage the historic disruption of the American state we are now experiencing

Fast Politics Laura Pérez Rastrilla, Pablo Sapag M., Armando Recio García, 2023-10-17 The goal of this book is to show the role of TikTok as a tool for political purposes To this end the authors analyse the messages posted on this social medium by political figures and institutions such as politicians and political parties their impact on political landscapes as well as the transformation of political communication techniques in order to suit the platform's features In the last two years the exponential growth of TikTok has led an increasing number of politicians and institutions to incorporate it into their communication strategies The platform displays some very different features from other social media that determine the way in which the content is presented In addition it manages to reach an audience that normally does not access or share political messages Within this context the volume pursues two main objectives First to examine how the communication techniques and the peculiarities of this social medium where short videos with actors in informal attitudes prevail affect the political message A second objective is to analyse the influence of the messages distributed through TikTok that redefine political scenarios and of the relationships of politicians and parties with voters The core of the book comprises case studies that are organised into three parts with nine chapters in all The authors are scholars and practitioners of political communication with diverse geographical representation who approach the topics from a range of methodological perspectives The first part addresses the state of the art and the influence of TikTok features on the way political communication is performed The second part discusses the influence of TikTok on electoral scenarios and political culture in India Bangladesh the United States and Ecuador Finally in the third part TikTok is analysed as an instrument for promoting far right politicians and parties in Europe as in the case of Matteo Salvini in Italy and AfD in Germany and Vox in Spain The volume is oriented to both scholars and communication professionals such as journalists communication consultants and speechwriters who want to become familiar with the platform learn about its political impact or wish to deepen their understanding of transformations in communication techniques and their adaptation to this growing social medium Chapter 2 The Moving Body as the Articulator Meme and Affective Link in Political Communication on TikTok is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com
