Making Stereo Fit Eric Dienstfrey,2024-01-16 Surround sound is often mistaken as a relatively new phenomenon in cinemas one that emerged in the 1970s with the arrival of Dolby Making Stereo Fit reveals that in fact filmmakers have been creating stereo and surround sound effects for nearly a century since the advent of talking pictures and argues that their endurance owes primarily to the longstanding battles between stereo and mono technologies Throughout the book Eric Dienstfrey analyzes newly discovered archival materials and myriad stereo releases from *Hell's Angels* 1930 to *Get Out* 2017 to show how Hollywood's financial dependence on mono prevented filmmakers from seeing surround sound's full aesthetic potential Though studios initially explored stereo's unique capabilities Dienstfrey details how filmmakers eventually codified a conservative set of surround sound techniques that prevail today despite the arrival of more immersive formats

Digital Television in Europe Wendy Van den Broeck,Jo Pierson,2008 *Ticket Scalping* Kerry Segrave,2006-11-15 Ticket scalping is as much an American staple as apple pie Beginning as early as the mid 1800s scalpers known as sidewalk men were charging all the traffic would bear for event tickets Although these speculators were generally viewed as pariahs and public opinion was against the practice legal attempts to limit their activities were far from successful Boston enacted laws as early as 1873 while Pennsylvania followed suit in 1884 Still such measures did little good since some laws were declared unconstitutional and for the ones that were upheld the fines were negligible with jail time rarely served Over the years as moral objections to scalping dimmed the public became more tolerant as the practice became increasingly prevalent By the 1990s the capitalist mantras of free market and economic principles of supply and demand were even being used to justify the practice This volume details the ways in which scalping has changed over the years from a one man business to an agency controlled enterprise from performances by Jenny Lind to Billy Joel The book examines the general situation public opinion and legal perception of scalping for four distinct periods 1850 1899 1900 1917 1918 1949 and 1950 2005 Emphasis is placed on the ways in which public and legal perception of the practice has evolved over this period Scalping slowly gaining a more positive status has become more accepted as part of the economic practice of free markets
