Coercion and Social Welfare in Public Finance Jorge Martinez-Vazquez, Stanley L. Winer, 2014-05-22 Although coercion is a fundamental and unavoidable part of our social lives economists have not offered an integrated analysis of its role in the public economy The essays in this book focus on coercion arising from the operation of the fiscal system a major part of the public sector Collective choices on fiscal matters emerge from and have all the essential characteristics of social interaction including the necessity to force unwanted actions on some citizens This was recognized in an older tradition in public finance which can still serve as a starting point for modern work The contributors to the volume recognize this tradition but add to it by using contemporary frameworks to study a set of related issues concerning fiscal coercion and economic welfare These issues range from the compatibility of an open access

society with the original Wicksellian vision to the productivity of coercion in experimental games **Statistics and Finance**
David Ruppert, 2014-02-26 This textbook emphasizes the applications of statistics and probability to finance. Students are assumed to have had a prior course in statistics but no background in finance or economics. The basics of probability and statistics are reviewed and more advanced topics in statistics such as regression, ARMA and GARCH models, the bootstrap and nonparametric regression using splines are introduced as needed. The book covers the classical methods of finance such as portfolio theory, CAPM and the Black-Scholes formula and it introduces the somewhat newer area of behavioral finance. Applications and use of MATLAB and SAS software are stressed. The book will serve as a text in courses aimed at advanced undergraduates and masters students in statistics, engineering and applied mathematics as well as quantitatively oriented MBA students. Those in the finance industry wishing to know more statistics could also use it for self study.
