Colleges, 2005 Edition Princeton Review (Firm), 2004 Known as the smart buyer's guide to college this guide includes all the practical information students need to apply to the nation's top schools It includes rankings and information on academics financial aid quality of life on campus and much more *The American Legal Profession* Christopher P.

Banks, 2017-06-21 While emphasizing that lawyers fulfill a vital but often misunderstood public function in society *The American Legal Profession: The Myths and Realities of Practicing Law* dispels some of the common misconceptions about the legal profession to show that the reality of being a lawyer is much different from what many students believe it to be Many students know little about what law school is like or how it differs from undergraduate study and this book corrects common myths about graduating law school and life after passing the bar This brief primer is a nuts and bolts analysis of what it is really like to go into the legal profession from start to finish giving students considering a career in law a realistic overview of their potential legal careers **Complete Book of Colleges, 2005 Edition** Princeton Review (Firm), 2004-07-20 Up to date information on 1 780 colleges and universities **Place, Not Race** Sheryll Cashin, 2014-05-06 From a nationally recognized expert a fresh and original argument for bettering affirmative action Race based affirmative action had been declining as a factor in university admissions even before the recent spate of related cases arrived at the Supreme Court Since Ward Connerly kickstarted a state by state political mobilization against affirmative action in the mid 1990s the percentage of four year public colleges that consider racial or ethnic status in admissions has fallen from 60 percent to 35 percent Only 45 percent of private colleges still explicitly consider race with elite schools more likely to do so although they too have retreated For law professor and civil rights activist Sheryll Cashin this isn't entirely bad news because as she argues affirmative action as currently practiced does little to help disadvantaged people The truly disadvantaged black and brown children trapped in high poverty environs are not getting the quality schooling they need in part because backlash and wedge politics undermine any possibility for common sense public policies Using place instead of race in diversity programming she writes will better amend the structural disadvantages endured by many children of color while enhancing the possibility that we might one day move past the racial resentment that affirmative action engenders In *Place Not Race* Cashin reimagines affirmative action and champions place based policies arguing that college applicants who have thrived despite exposure to neighborhood or school poverty are deserving of special consideration Those blessed to have come of age in poverty free havens are not Sixty years since the historic decision we're undoubtedly far from meeting the promise of *Brown v Board of Education* but Cashin offers a new framework for true inclusion for the millions of children who live separate and unequal lives Her proposals include making standardized tests optional replacing merit based financial aid with need based financial aid and recruiting high achieving students from overlooked places among other steps that encourage cross racial alliances

and social mobility A call for action toward the long overdue promise of equality Place Not Race persuasively shows how the social costs of racial preferences actually outweigh any of the marginal benefits when effective race neutral alternatives are available

The Inequality Machine Paul Tough, 2021-03-04 Indelible and extraordinary a powerful reckoning with just how far we've allowed reality to drift from our ideals Tara Westover New York Times Book Review We're told that universities are our greatest driver of social mobility But it's a lie The Inequality Machine is a damning exposé of how the university system ingrains injustice at every level of American society Paul Tough bestselling author of *How Children Succeed* exposes a world where small town colleges go bust while the most prestigious raise billions every year where overstretched admissions officers are forced to pick rich candidates over smart ones where black and working class students are left to sink or swim on uncaring campuses Along the way he uncovers cutting edge research from the academics leading the way to a new kind of university one where students succeed not because of their background but because of the quality of their minds The result is a call to arms for universities that work for everyone and a manual for how we can make it happen Humanizes the process of higher education Fascinating stories about efforts to remediate class disparities in higher education New Yorker

Wannabe U Gaye Tuchman, 2009-10-15 Based on years of observation at a large state university Wannabe U tracks the dispiriting consequences of trading in traditional educational values for loyalty to the market Aping their boardroom idols the new corporate administrators at such universities wander from job to job and reductively view the students there as future workers in need of training Obsessed with measurable successes they stress auditing and accountability which leads to policies of surveillance and control dubiously cloaked in the guise of scientific administration In this eye opening exposé of the modern university Tuchman paints a candid portrait of the corporatization of higher education and its impact on students and faculty Like the best campus novelists Tuchman entertains with her acidly witty observations of backstage power dynamics and faculty politics but ultimately Wannabe U is a hard hitting account of how higher education's misguided pursuit of success fails us all

Cracking College Admissions Princeton Review, 2004 Presents a comprehensive guide to assisting with the college admissions process and includes information on choosing the right school creating schedules understanding tuition and financial aid and making a good first impression on the admissions committee
