the decrease in shark populations after Jaws to the increase in women and girls taking up archery following The Hunger Games You Are What You Watch proves its points not just with research and argument but hard data Did you know for example that crime statistics prove that violent movies actually lead to less real world violence And that the international rise of anime and Manga helped lift the Japanese economy out of the doldrums in the 1980s Or that British and American intelligence agencies actually got ideas from the James Bond movies In You Are What You Watch readers will be given a nerdy and sobering celebration of popular entertainment and its surprising power to change the world *MacBook Pro*
