the story of a strange rural childhood the kind of childhood he only realised was weird when he left home and started telling people about it From only having four people in his year at school to living in a family home where they didn't just not bother to lock the front door they didn't even have a key Using a different television show of the time as its starting point for each chapter *Watching Neighbours Twice a Day* is part childhood memoir part comic history of 90s television and culture It will discuss everything from the BBC convincing him that Michael Parkinson had been possessed by a ghost to Josh's belief that Mr Blobby is one of the great comic characters to what it's like being the only vegetarian child west of Bristol It tells the story of the end of an era the last time when watching television was a shared experience for the family and the nation before the internet meant everyone watched different things at different times on different devices headphones on to make absolutely sure no one else could watch it with them

How Canadians Communicate V David Taras, Christopher Waddell, 2016-03-15 Fewer Canadians than ever are lacing up skates swimming lengths at the pool practicing their curve ball and experiencing the thrill of competition However despite a decline in active participation Canadians spend enormous amounts of time and money on sports as fans and followers of sporting events and sports culture Never has media coverage of sports been more exhaustive and never has it been more driven by commercial interests and the need to fuel consumerism on which corporate profits depend But the power plays now occurring in the arena of sports are by no means solely a matter of money At issue as well in the media capture of sports are the values that inform our daily lives the physical and emotional health of the population and the symbols so long central to a sense of Canadian identity Writing from a variety of perspectives the contributors to this collection set out to explore the impact of the media on our reception of and attitudes toward sports to unpack the meanings that sports have for us as citizens and consumers Some contributors probe the function of sports as spectacle the escalation of violence controversies over drug use and the media's coverage of tragic deaths while others shed light on the way in which the media serve to transform sports into a vehicle for the expression of identity and nationalism The goal is not to score points but to prompt critical discussion of why sports matter in Canadian life and culture and how they contribute to the construction of identity

Every Dolphin Has His Day Dan O'Sullivan,2019-03-15 Football fundamentals have never been more insightfully humorous than in this fish tale about living with losing For over three decades the Miami Dolphins were considered one of the elite playoff contender teams of the NFL but have only returned there twice in the past seventeen years So what gives Award winning writer Dan O Sullivan uses both Miami s 2017 losing season and his own quarter century s worth of fandom experiences to analyze a question that asks why as a society some of us continuously support our favorite sports teams that only ever seem to deliver disappointment on an annual basis because the Miami Dolphins could just as well represent YOUR favorite team So whether you re a Dolfan general sports nut or just a curious mind strap on a helmet for an engaging experience which challenges our glorified notion that it s only a game

The Content Trap Bharat Anand,2016-10-18 My favorite book of the year Doug McMillon CEO Wal Mart Stores Harvard Business School Professor of Strategy Bharat Anand presents an incisive new approach to digital transformation that favors fostering connectivity over focusing exclusively on content NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Companies everywhere face two major challenges today getting noticed and getting paid To confront these obstacles Bharat Anand examines a range of businesses around the world from The New York Times to The Economist from Chinese Internet giant Tencent to Scandinavian digital trailblazer Schibsted and from talent management to the future of education Drawing on these stories and on the latest research in economics strategy and marketing this refreshingly engaging book reveals important lessons smashes celebrated myths and reorients strategy Success for flourishing companies comes not from making the best content but from recognizing how content enables customers connectivity it comes not from protecting the value of content at all costs but from unearthing related opportunities close by and it comes not from mimicking competitors best practices but from seeing choices as part of a connected whole Digital change means that

everyone today can reach and interact with others directly We are all in the content business But that comes with risks that Bharat Anand teaches us how to recognize and navigate Filled with conversations with key players and in depth dispatches from the front lines of digital change The Content Trap is an essential new playbook for navigating the turbulent waters in which we find ourselves Praise for The Content Trap A masterful and thought provoking book that has reshaped my understanding of content in the digital landscape Ariel Emanuel co CEO WME IMG The Content Trap is a book filled with stories of businesses from music companies to magazine publishers that missed connections and could never escape the narrow views that had brought them past success But it is also filled with stories of those who made strategic choices to strengthen the links between content and returns in their new master plans The book is a call to clear thinking and reassessing why things are the way they are The Wall Street Journal
