groundbreaking poet for her starkly beautiful poems in *Ariel* and as a brilliant forerunner of the feminist coming of age novel in her semiautobiographical *The Bell Jar*. Each new biography has offered insight and sources with which to measure Plath's life and influence. *Sylvia Plath Day by Day*, a two volume series, offers a distillation of this data without the inherent bias of a narrative. Volume 1 commences with Plath's birth in Boston in 1932, records her response to her elementary and high school years, her entry into Smith College and her breakdown and suicide attempt, and ends on February 14, 1955, the day she wrote to Ruth Cohen, principal of Newnham College, Cambridge, to accept admission as an affiliated student at Newnham College to read for the English Tripos. *Sylvia Plath Day by Day* is for readers of all kinds with a wide variety of interests in the woman and her work. The entries are suitable for dipping into and can be read in a minute or an hour. Ranging over several sources, including Plath's diaries, journals, letters, stories, and other prose and poetry, including new material and archived material rarely seen by readers, a fresh kaleidoscopic view of the writer emerges.

*Choosing College* Michael B. Horn, Bob Moesta, 2019-08-23

Cut through the noise and make better college and career choices. This book is about addressing the college choosing problem. The rankings, metrics, analytics, college visits, and advice that we use today to help us make these decisions are out of step with the progress individual students are trying to make. They don't give students and families the information and context they need to make such a high stakes decision about whether and where to get an education. *Choosing College* strips away the noise to help you understand why you're going to school. What's driving you? What are you trying to accomplish? Once you know why, the book will help you make better choices. The research in this book illustrates that choosing a school is complicated. By constructing more than 200 mini documentaries of how students chose different postsecondary educational experiences, the authors explore the motivations for how and why people make the decisions that they do at a much deeper causal level. By the end, you'll know why you're going and what you're really chasing. The book identifies the five different jobs for which students hire postsecondary education. Allows you to see your true options for what's next. Offers guidance for how to successfully choose your pathway. Illuminates how colleges and entrepreneurs can build better experiences for each job. The authors help readers understand not what job students want out of college, but what job students are hiring college to do for them.
