Make a Living Writing Richard Fire, 2024-01-03 When I was a child when I told my parents that I wanted to be a writer they told me that it was very difficult as difficult as being a soccer player I don't deny it and that the best thing would be to have a job for example recurrent example as a teacher and in addition to write in my free time How Is it impossible to live only by writing LIE For a while I believed it until they started to offer me money for my writings and I began to meet other people who while still students had also found ways to obtain very juicy incomes from writing It is possible to make a living from writing experience has taught me that and here I share how So that all those who like me when I was a kid want to do it can learn from my experience You don't need to have a boring job that you hate If you are really interested in the art of arranging spaces and letters there are millions of people willing to take advantage of your talent it has a huge value in the market If you notice there are so many subjects that must be written down mails formal requests announcements news biographies manuals instructions catalogs Even a good restaurant menu must include a few sentences about each dish and drink On the other hand there are very few people who know how to write clearly making themselves understood economizing space and making an impact There is an opportunity for writers who take their profession seriously and make the most of their own creativity It is difficult because we have been educated to obey to write or do what we are told and as we see in this book if you want to make a living from writing you should not limit yourself to writing for others In this book I show you the way to polish your lines until they come in like the sea breeze giving life I write finally the book that I would like to have read It is not the first book that exists on this subject so I will spare you content that you can find by searching Google and Amazon Here I show you what has helped me my trajectory I warn sailors making a living from writing requires discipline and passion Discipline self discipline in case you are independent can be improved Not passion if you don't like writing if you don't do it out of the need to express yourself and to create it is very difficult for you to dedicate enough hours to it to make it a source of income powerful enough to give you the life you want I'm not going to dwell too much on this regarding self discipline there are mountains of books on habits and routines that can help you In short you need to write practically every day at least every week at least for a few years give yourself five years as an outlook in which with a lot of effort you can get to write better than most If you dream of being known for your literary work even if you use pseudonyms you can always reveal your identity to whomever you wish or make a living from helping to solve problems if your preferred genre is essays this book is for you You are probably here because you have lacked something to be able to dedicate yourself 100% to words or perhaps you already do but you want to improve Come on No More Fake Reading Berit Gordon, 2017-07-07 For middle and high school teachers it's one of today's most vexing problems How do you motivate students with varied interests and little appetite for classic literature to stop faking their way through texts and start advancing as skilled engaged readers Independent reading is an important part of the answer but it's just that a part of the

whole In this groundbreaking book Berit Gordon offers the complete solution a blended model that combines the benefits of classic literature with the motivational power of choice reading With the blended model teachers lead close examinations of key passages from classic texts guiding students to an understanding of important reading strategies they can transfer to their choice books Teachers gain a platform for demonstrating the critical reading skills students so urgently require and students thrive on reading what they want to read In this research backed book Gordon leads you step by step to classroom success with the blended model showing The basics of getting your classroom library up and running How to build a blended curriculum for both fiction and non fiction units keeping relevant standards in mind Tips and resources to help with day to day planning Ideas for selecting class novel passages that provide essential cultural capital and bolster students reading skills Strategies for bringing talk into your blended reading classroom How to reach the crucial learning goal of transfer A practical user friendly approach for assessing each student s progress No More Fake Reading gives you all the tools you need to put the blended model to work for your students and transform your classroom into a vibrant reading environment Berit Gordon coaches teachers as they nurture lifelong readers and writers Her path as an educator began in the classroom in the Dominican Republic before teaching in New York City public schools She also taught at the Teachers College of Columbia University in English Education She currently works as a literacy consultant in grades 3 12 and lives in Maplewood New Jersey with her husband and three children
