Everybody's Baby Lydia Netzer, 2014-06-03 Jenna and Billy are in love He s an app developer a hyper plugged in citizen of the internet with a big Scottish family and winning smile She is a yoga teacher tuned in to the vibes of the spiritual universe who was abandoned by her mother as an infant and orphaned by her father s recent death When they meet it s electric and it is no time before they are married and eager to start their own family But when they can t get pregnant Billy devises a plan they would raise funds for their in vitro fertilization on Kickstarter offering donor perks like cutting the cord naming the baby and catching the baby when it takes its first steps The good news is that they make their fundraising goal get pregnant and have a baby The bad news is that their marriage begins to fall apart when they have to deliver on all those perks It s hard enough to survive delivering a baby without a performance artist making a documentary of the cord cutting It s difficult enough to get baby to sit up and smile for a six month portrait without a local politician taking up half the lens What does it mean to be owned by the internet Lydia Netzer s *Everybody s Baby* explores how relationships grow and fail in public and private life the hazards of living in the cloud and the nature of love online and off

Aligning for Advantage Thomas C. Lawton, Jonathan P. Doh, Tazeeb Rajwani, 2014-02-27 In today s multipolar world economy strategic alignment is a key determinant of competitive advantage Coca Cola Danone Diageo DuPont Lufthansa and Tata are some of the companies that strive for a pragmatic approach to balancing competitive strategies with political and social obligations Aligning for Advantage argues that to build and sustain corporate success companies must synchronize business objectives and market positions with political and regulatory activism and social and environmental engagement Moreover to be credible and realizable these external market and nonmarket strategies need to be equally attuned with corporate vision values and culture The book advances a managerial process and conceptual framework for aligning corporate strategy In some cases alignment may mean deep strategically embedded partnerships with governments NGOs or other stakeholders In others alignment may take the form of looser temporary collaborations with outside organizations No matter the approach the relationship between nonmarket and market strategies should be deliberate and genuine not accidental or artificial Truly aligned strategies should reconcile and modulate sometimes conflicting external demands in a way that is appropriate for the corporation s geographic and market positions In the end companies must leverage their overall nonmarket strategy as a source of competitive advantage
