the new curriculum the revised edition of Transforming Primary Mathematics sets out key theories and cutting edge research in the field to enable teachers to take a fresh look at how they teach mathematics The book encourages teachers to reflect on their own beliefs and values about mathematics and asks them to question whether their current methods meet the needs of all learners and the challenge of having high expectations for all It provides clear practical approaches to help implement fundamental change in classroom environments and offers motivational teaching styles to ensure meaningful mathematics learning Chapters take an inspiring sometimes controversial and often unconventional look at the subject of mathematics by endorsing the use of a new mathematics one based on problem solving modelling inquiry and reasoning not on abstract rules memorising and regurgitation arguing that there is more to maths teaching than death by a thousand worksheets challenging norms such as the practice of sorting children into sets based on their perceived mathematical ability asking whether mathematical ability is innate or a result of social practices examining what a mastery approach might entail highlighting the role of variation in supporting learning advocating an environment where teachers are encouraged to take risks

Transforming Primary Mathematics is for all primary school teachers who want to make mathematics welcoming engaging inclusive and successful

The Apple Shouldn't Fall Far from Common Core Denise Skarbek, 2015-12-18 The purpose of The Apple Shouldn't Fall Far From Common Core Teaching Techniques to Include All students is to offer teacher candidates teachers teacher educators administrators and other education professionals evidence based interventions to use when developing and implementing common core state standards or adopted state standards to children considered at risk English Language Learners and students having disabilities Certain evidence based interventions are offered in this book with the hope that readers will utilize the chapter author's experiences and knowledge to inform their own practices The evidence based interventions selected for this book are considered common across the different accreditation bodies and critical for common core implementation Other evidence based interventions have been selected for this book because they are important to the professional discourse and present additions to the more mainstream teaching such as differentiation of instruction universal design of instruction and adaptations to the lessons such as accommodations are presented

The Role of interest in Learning and Development K. Ann Renninger, Suzanne Hidi, Andreas Krapp, 2014-02-04 Interest is just emerging as a critical bridge between cognitive and affective issues in both learning and development This developing interest in interest appears to be linked to an increasing concern for studying the individual in context examining affective variables as opposed to purely structural features of text analyzing the interrelationship of cognitive and social development understanding practical applications of theories of motivation and recognizing the importance of developmental psychology for the study of learning This book addresses both how individual interest and interest inherent in stimuli books text toys etc across subjects affect cognitive performance While the book's particular emphasis is on theory driven research each of the contributing authors offers a unique perspective on understanding interest and its effects on learning and development As

such each has contributed a chapter in which particular questions in interest research are described and linked to a clearly stated theoretical perspective and recent findings Relevant material from the broader literatures of psychology and education are analyzed in the context of these discussions In addition the introductory and concluding chapters build on the contributions to the volume by providing the basis of a coherent view of interest across genres such as stories and expository text and domains as varied as play reading and mathematics
