Making Black Girls Count in Math Education Nicole M. Joseph,2022-08-16 Making Black Girls Count in Math Education explores the experiences of Black girls and women in mathematics from preschool to graduate school deftly probing race and gender inequity in STEM fields Nicole M Joseph investigates factors that contribute to the glaring underrepresentation of Black female students in the mathematics pipeline Joseph s unflinching account calls attention to educational structures and practices that contribute to race and gender based stratification in science technology engineering and mathematics disciplines The author also disentangles a complex network of historical and sociopolitical elements that influence the perception and experiences of Black girls and women both inside and outside of mathematics education In her clear eyed assessment of the intersectional difficulties facing this marginalized group Joseph offers a critical view of the existing mathematics education research practice and policies that have neglected Black girls and women confronts the problematic history of mathematics education policy and considers imbalances in the current teacher workforce in US mathematics programs She then provides practical actionable suggestions for reform Joseph invites students families and educators as well as researchers policy makers and other relevant stakeholders to disrupt systems structures and ideologies She calls for an end to racism and sexism in many areas of mathematics education including learning environments curriculum design and implementation and testing and assessments An essential read for anyone concerned about supporting the mathematical learning and development of Black girls and women this work advocates for coalition building so that greater more equitable opportunities for learning and engagement may be offered to Black female students

Reading and Writing Strategies for the Secondary Mathematics Classroom in a PLC at Work® Daniel M. Argentar, Katherine A. N. Gillies, Rubenstein Maureen M., Brian R. Wise, 2024-09-10. Students need literacy support to think, read, and write in every subject including math. Part of the Every Teacher Is a Literacy Teacher series, this book emphasizes the importance that the PLC at Work process has in supporting learners who struggle with literacy. Grades 6-12 teachers will strengthen reading capabilities with practical reading and writing strategies specifically designed for mathematics instruction. This book will help secondary math teachers learn how to incorporate writing instruction into mathematics curriculum and why it's important. Collaborate with their colleagues using end of chapter prompts that encourage PLC cooperation. Implement immediate intervention strategies for struggling students to shorten learning gaps. Strategize their mathematics instruction to effectively address both struggling students and those at proficient levels. Implement formative and summative assessments and look at feedback. Contents:
