**We Breed Lions** Rick Westhead, 2025-11-04 A hard hitting and powerful look at hockey's moment of reckoning in Canada and the ways in which a game that is so universally loved has been rocked in recent years by court cases involving sexual assault and startling incidents of hazing and abuse throughout junior hockey. The allegations read like a scene out of a horror movie. Five National Hockey League players, all of them 18 to 20 year old Canada World Juniors at the time, were alleged to have sexually assaulted a young woman in a London Ontario hotel room in June 2018 over several hours. When the players learned that the alleged victim had reported the incident to the police, they allegedly coerced her to drop the complaint and colluded to make sure their stories lined up. Hockey Canada kept the details of the case out of the spotlight and came to a confidential financial settlement with the plaintiff, paid out of a secret slush fund worth millions of dollars that the organization kept on hand to settle such complaints quietly. On May 26, 2022, TSN investigative reporter Rick Westhead broke the story surrounding the Team Canada junior players and Hockey Canada's handling of the case, immediately sending shock waves throughout all levels of the hockey world. Charges of sexual assault were made against the players, all of whom entered pleas of not guilty. Once the story went live on the TSN website, Westhead's inbox on X filled with messages from people who wanted to share their personal stories on how they had been impacted by hockey's toxic culture. For over three years, the story ignited an enormous amount of debate and discussion across the country. Even after the players were acquitted of all charges in July 2025, the conversation about how broken the national game had become only intensified. In *We Breed Lions*, award-winning journalist and bestselling author Rick Westhead does a deep dive into the state of hockey in Canada today. He gives voice to those who have been sexually assaulted by hockey players, revealing the struggles they've had with local police officials in their efforts to seek justice. He also goes inside the dressing room to find out how attitudes of misogyny and homophobia continue to flourish and speaks to former players who were forced to perform degrading acts of initiation in order to be one of the guys. Looming large in Westhead's extraordinary reporting are the gatekeepers of the game: league officials, team owners, and members of the sport's governing bodies who are reluctant to impose change from the outside and willing to sacrifice the well-being of their players and the community for profit. Westhead offers hope for hockey's future, profiling those individuals and organizations who are committed to educating players around issues of consent, putting an end to hazing, and redefining what it means to be a man on and off the ice. Featuring a Foreword by bestselling author Stephen Brunt, *We Breed Lions* is must reading for parents, players, and all of those who love the game of hockey and want to see it get to a better place.

**Gino** Patrick Johnston, Peter Leech, 2025-10-07 From veteran hockey reporter Patrick Johnston and Gino's longtime friend Peter Leech comes the authorized biography of Gino Odjick In the 1980s and 90s National Hockey League games were very different from the nimble skill focused displays we see today One of the greatest differences and one of the sport's more popular facets at the time was the widespread presence of enforcers hulking battle scarred players whose main task was to police the sport by chasing down and brawling with opponents who had broken unwritten codes determining which aspects of violence counted as dishonorable or unjustified

When hard hitting Vancouver Canucks player Gino Odjick emerged in the early 1990s he quickly became one of the game's most feared enforcers and revered teammates a sign of a new era for the team racking up 296 penalty minutes in the 45 games he played in his rookie season Hailing from Kitigan Zibi an Algonquin community near Maniwaki Quebec Gino was one of the few Indigenous players in the NHL at the time But it was Gino's ferocious play contrasted by his genuinely affable and openhearted personality off the ice that won him a special place in the hearts of Canucks supporters Yet legends often obscure the human stories behind them Patrick Johnston and Peter Leech look beyond Gino's legendary persona drawing on insights from family members friends and teammates to recount Gino's early years in a loving household that was always ready to welcome foster children Gino's father Joe had suffered the lonely traumas of the residential school system and the experience had instilled a commitment in the family to those who were less fortunate The book also details Gino's eventual struggles with alcohol abuse and how he responded by taking on the role of empathetic mentor to young Indigenous people travelling from community to community to hear their stories and offer hope He never wavered in this role even as he confronted serious illnesses including chronic traumatic encephalopathy CTE and the rare blood disorder that he survived for years longer than expected but that eventually led to his death at age fifty two Gino is a moving tribute to a beloved hockey legend

**Emotions as Key Drivers of Consumer Behaviors: A Multidisciplinary Perspective, 2nd edition** Debora Bettiga, Giuliano Noci, Omneya Yacout, 2025-09-16 Consumers not only make rational decisions but also emotional ones Research now recognizes the significance of diverse neglected factors such as emotions affect arousal and pleasure in appraisal and has identified processes and behaviors that do not fit with the traditional view of acting as a result of a purely deliberate process Consumers behaviors and choices are grounded both in consumer beliefs and judgements and in experiences and emotions Individuals more broadly bring their perceptions values feelings and cognitive schemes to bear in interpreting the world In this context unconscious physiological manifestations can offer indications as to how people evaluate filter and react to external stimuli What is expressed by the conscious mind indeed does not represent a full and perfect representation of the actual needs and wishes of individuals Understanding

consumer behaviors has long been a challenging endeavor due to different variables affecting decision making mechanisms and the difficulty of measuring them. It requires indeed a comprehension of both the cognitive information processing mechanisms and of the affective and experiential systems of individuals. Moreover, it demands an appreciation of the rich and deep interplay between cognitive and affective processes. Understanding consumers' emotions can inform practitioners on how to effectively communicate with their target audience, whether internal or external, in order to elicit attention, engagement, and positive emotional responses and to build emotional connections. This Research Topic aims to disseminate knowledge on the role of emotions in consumer behavior throughout the purchasing process while also allowing for dialogue between disciplines such as psychology, organizational behavior, marketing, neuroscience, bioscience, and design.
