A Love since New Year's Eve: Sapphic Romance Sanne Hipp, 2024-10-03 Doktor Evie Ross ist bis her beide Ohren verliebt zum ersten Mal in ihrem Leben in eine Frau. Für sie beginnt das neue Jahr auf ganz besondere Weise. Beiden Frauen ist es ernst und sie träumen von einer festen Beziehung. Doch sie leiden unter ihrem familiären Erbe. Während Evie die Diskrepanzen mit ihrer Familie zu meistern scheint, sind Selins Probleme Steine auf dem Weg zu ihrem Glück. Der erste Streit in der noch jungen Beziehung wird zur Bewährungsprobe. Werden die zwei Frauen allen Widrigkeiten trotzen können? *New Perspectives on Bare Noun Phrases in Romance and Beyond* Johannes Kabatek, Albert Wall, 2013-11-15

This book envisions the study of bare noun phrases as a field of research in its own right rather than an accessory matter in the wider domain of nominal determination. Combining insights from different theoretical backgrounds and extending the empirical coverage of bare noun phenomena, the ten contributions provide new perspectives on long-standing but still actively debated problems as well as investigations into previously ignored issues. The volume focuses on the wide range of bare noun phenomena in Romance languages including Spanish, Catalan, Brazilian and European Portuguese, Italian and French, but also widens its inherently comparative perspective to languages such as Bulgarian and Modern Hebrew. The authors discuss the importance of cross-linguistic patterns in the modeling of the syntax and semantics of noun phrases and of common noun denotations, the role of information structure as well as that of discourse traditions and coordination. **New Perspectives on Romance**

Linguistics: Phonetics, phonology and dialectology Chiyo Nishida, Jean-Pierre Montreuil, 2006-01-01 This is the second of two volumes emanating from the Linguistic Symposium on Romance Languages held at the University of Texas at Austin in February 2005. It features the keynote addresses delivered by Prof. Jacques Durand on the Phonology of Contemporary French, Project and Prof. John Charles Smith on skeuomorphy and refunctionalization. It also includes eleven contributions by reputed scholars on topics ranging from phonetics, phonology, morphophonology, dialectology, sociolinguistics and language variation. Formal phonology papers favor the model of Optimality Theory, while phonetic measurements serve as the basis for sociolinguistic and dialectometric studies. Many of these studies emphasize new comparative typological approaches to Romance data, including many non-standard varieties of French, Italian and Spanish. This volume will be of interest to all Romance linguists.

New Analyses in Romance Linguistics Dieter Wanner, Douglas A. Kibbee, 1991-03-15 The twenty papers from the eighteenth Linguistic Symposium on Romance Languages deal with diverse aspects of the Romance languages and Romance linguistics They reflect the current state of Romance studies in North America and of the particular outlook among the international group of contributors and participants to LSRL 18 The thriving research front accords central importance to formal questions of synchronic analysis The group of seven historical and typological papers amounts to a strong alternative Several papers treat the group of Romance languages not only as a well defined almost exclusive research province but move from Romance phenomena outward to other language types even to genuinely universal dimensions Other contributions maintain a more circumscribed outlook exploiting the typological closeness of the Romance idioms for improved analyses Three invited contributions by Georg Bossong Yves Charles Morin and Maria Luisa Rivero on typological phonological and syntactic questions set the tone for the volume
