

name, no spark ever came out of his wheel, while Ranga created a regular pyrotechnic display and passing children stood transfixed by the spectacle. "All right," Ranga would retort, "I do not grudge the
 65 poor fellow his luck, but he will impart to your knife the sharpness of an egg; after that I won't be able to do anything for you. You must not think that anyone and everyone could handle steel. Most of these fellows don't know the difference between a knife
 70 blade and a hammerhead."

Ranga's customers loved his banter and appreciated his work, which he always guaranteed for sixty days. "If it gets dull before then, you may call me." If he were to be assailed for defective
 75 execution, he could always turn around and retort that so much depended upon the quality of metal, and the action of sun and rain, and above all the care in handling, but he never argued with his customers; he just resharpened the knives free of cost on his next
 80 round. Customers always liked to feel that they had won a point, and Ranga would say to himself, "After all, it costs nothing, only a few more turns of the wheel and a couple of sparks off the stone to please the eye."

Most Paul Tough, 2019-09-12 What has gone wrong in our universities? And how do we make it right? When Amy applied to university, she thought she'd be judged purely on her merits. But she never thought that her family background would have as much impact on her future as her grades. When KiKi arrived at university, she knew she could be the only black woman in her class. But she didn't know how out of place she would feel, nor how unwelcoming her peers would be. When Orry graduated from university, he was told he'd probably land a six-figure salary. But he wasn't told he'd end up barely scraping a living wage, struggling to feed his children. Drawing on the stories of hundreds of American students, *The Years That Matters Most* is a revelatory account of a university system in crisis. Paul Tough, bestselling author of *How Children Succeed*, exposes a world where small-town colleges go bust while the most prestigious raise billions every year, where overstretched admissions officers are forced to pick rich candidates over smart ones, where black and working-class students are left to sink or swim on uncaring campuses. Along the way, he uncovers cutting-edge research from the academics leading the way to a new kind of university, one where students succeed not because of their background but because of the quality of their minds. The result is a call to arms for universities that work for everyone and a manual for how we can make it happen. **The Inequality**

Machine Paul Tough, 2021-03-04 Indelible and extraordinary, a powerful reckoning with just how far we've allowed reality to drift from our ideals. Tara Westover, New York Times Book Review. We're told that universities are our greatest driver of social mobility. But it's a lie. *The Inequality Machine* is a damning exposé of how the university system ingrains injustice at every level of American society. Paul Tough, bestselling author of *How Children Succeed*, exposes a world where small-town colleges go bust while the most prestigious raise billions every year, where overstretched admissions officers are forced to pick rich candidates over smart ones, where black and working-class students are left to sink or swim on uncaring campuses.
