R. Gonzalez,1986 *Snap Bean Trials, 1987* A. R. Gonzalez,1988 **Scientific and Technical Aerospace Reports** ,1988 Research Series ,1989 *Seeing Ourselves in Nature* Jessica Fong,2025-08-19 Discover the profound and joyous stories of Black and Brown nature educators In Seeing Ourselves in Nature author Jessica Fong asks how educators in the United States who are Black Indigenous or other people of color can create space for predominantly BIPOC children and families to reconnect to nature Recognizing the scarcity of stories from people of color in the predominately white literature surrounding nature education in the United States Fong sought out thirteen other BIPOC educators to share their rich and profound experiences with young children in nature Sharing these stories is a first step in the long road to making nature education equitable for all children In section one educators work toward liberation and justice by actively pushing against the pushdown of academics on children of color In section two community and cultural connections based in nature come to the forefront as educators share the importance of seeing Black and Brown faces in

natural spaces both in real life and in the images found in books In section three prose and poetry stories from Black women become radical by virtue of their simplicity as they connect the students and families they serve by centering their experiences with nature In section four children harness their powerful curiosity and intrinsic motivation when interacting with nature

Nuclear Science Abstracts ,1974 **The Technology of Discovery** David Friedrich Woerner,2023-02-06 The Technology of Discovery Incisive discussions of a critical mission enabling technology for deep space missions In The Technology of Discovery Radioisotope Thermoelectric Generators and Thermoelectric Technologies for Space Exploration distinguished JPL engineer and manager David Woerner delivers an insightful discussion of how radioisotope thermoelectric generators RTGs are used in the exploration of space It also explores their history function their market potential and the governmental forces that drive their production and design Finally it presents key technologies incorporated in RTGs and their potential for future missions and design innovation The author provides a clear and understandable treatment of the subject ranging from straightforward overviews of the technology to complex discussions of the field of thermoelectrics Included is also background on NASA s decision to resurrect the GPHS RTG and discussion of the future of commercialization of nuclear space missions Readers will also find A thorough introduction to RTGs as well as their invention history and evolution Comprehensive explorations of the contributions made by RTGs to US space exploration Practical discussions of the evolution selection and production of RPS fuels In depth examinations of technologies and generators currently in development including skutterudite thermoelectrics for an enhanced MMRTG Perfect for space explorers aerospace engineers managers and scientists The Technology of Discovery will also earn a place in the libraries of NASA archivists and other historians

MESSIAH Shawn Armstrong,2025-07-15 The book Messiah critically examines the policies and impacts of President Obama s administration across various sectors Chapter 1 The Economy discusses military pension cuts the illusion of success during Obama s

presidency and the adverse effects of government policies on labor participation and military families It also addresses welfare reform dependency and spending in America Chapter 2 Foreign Policy analyzes Obama s foreign policy missteps including military engagements in Afghanistan Libya and Syria It critiques his approach to national security and military readiness highlighting the consequences of decisions like the release of Bowe Bergdahl and covert operations Chapter 3 Immigration critiques Obama s record on immigration enforcement and the implications of the Dream Act Chapter 4 Obamacare outlines criticisms regarding the Affordable Care Act including rising costs negative impacts on patients and doctors and political controversies surrounding its implementation Overall Messiah presents a contentious evaluation of Obama s legacy across economic foreign policy immigration and healthcare domains **Superbloom** Nicholas

Carr,2025-01-28 This book might finally convince you to stay off social media or at least get the apps off your phone Brianne Kane Scientific American A Financial Times Best Summer Book of 2025 in Technology From the author of The Shallows a bracing exploration of how social media has warped our sense of self and society From the telegraph and telephone in the 1800s to the internet and social media in our own day the public has welcomed new communication systems Whenever people gain more power to share information the assumption goes society prospers Superbloom tells a startlingly different story As communication becomes more mechanized and efficient it breeds confusion more than understanding strife more than harmony Media technologies all too often bring out the worst in us A celebrated commentator on the human consequences of technology Nicholas Carr reorients the conversation around modern communication challenging some of our most cherished beliefs about self expression free speech and media democratization He reveals how messaging apps strip nuance from conversation how digital crowding erodes empathy and triggers aggression how online political debates narrow our minds and distort our perceptions and how advances in AI are further blurring the already hazy line between fantasy and reality Even as Carr shows how tech companies and their tools of connection have failed us he forces us to confront inconvenient truths about our own nature The human psyche it turns out is profoundly ill suited to the superbloom of information that technology has unleashed With rich psychological insights and vivid examples drawn from history and science Superbloom provides both a panoramic view of how media shapes society and an intimate examination of the fate of the self in a time of radical dislocation It may be too late to change the system Carr counsels but it s not too late to change ourselves **Living Off Georgia's Land** Barrett Williams,ChatGPT,2025-08-15 Living Off Georgia s Land is your practical
