The Return of Zeus John E. Muller, Lionel Fanthorpe, Patricia Fanthorpe, 2014-06-30 Man has often wondered about the birth of his world Our remote ancestors told strange tales of parental deities who gave birth to planets and people Primitive religious thought regarded inanimate Nature as teeming with terrifying psychic life It is a trend which persists in the dark recesses of the modern mind There is reason for this persistence Were the ancients entirely wrong Science has unlocked many mysteries that terrified our forebears but there are others which remain just as enigmatically sealed as before What strange astrological influences do the dark stars exert as they speed through the heavens on their evil courses Like a cosmic combination lock their tuning unleashes timeless forces of evil The Pantheon of Old Gods rides again to bring hideous terror to the 20th century
