Football and Manliness Thomas P. Oates, 2017-03-30 Women African Americans and gays have recently upended US culture with demands for inclusion and respect while economic changes have transformed work and daily life for millions of Americans The national obsession with the National Football League provides a window on this dynamic period of change reshaping ideas about manliness to respond to new urgencies on and beyond the gridiron Thomas P Oates uses feminist theory to break down the dynamic cultural politics shaping and shaped by today s NFL As he shows the league s wildly popular product provides an arena for media producers to work out and recalibrate the anxieties contradictions and challenges that characterize contemporary masculinity Oates draws from a range of pop culture narratives to map the complex set of theories about gender and race and to reveal a league and fan base in flux Though longing for a past dominated by white masculinity the mediated NFL also subtly aligns with a new economic reality that demands it cope with the shifting relations of gender race sexuality and class Indeed pro football crafts new meanings of each by its canny mobilization of historic ideological processes

Screen Schooled Joe Clement, Matt Miles, 2017-10-01 Over the past decade educational instruction has become increasingly digitized as districts rush to dole out laptops and iPads to every student Yet the most important question Is this what is best for students is glossed over Veteran teachers Joe Clement and Matt Miles have seen firsthand how damaging technology overuse and misuse has been to our kids On a mission to educate and empower parents they show how screen saturation at home and school has created a wide range of cognitive and social deficits in our young people They lift the veil on what s really going on in schools teachers who are often powerless to curb cell phone distractions zoned out kids who act helpless and are unfocused unprepared and unsocial administrators who are influenced by questionable science sponsored by corporate technology purveyors They provide action steps parents can take to demand change and make a compelling case for simpler smarter more effective forms of teaching and learning

The Power of Sports Michael Serazio, 2019-04-23 A provocative must read investigation that both appreciates the importance of and punctures the hype around big time contemporary American athletics In an increasingly secular fragmented and distracted culture nothing brings Americans together quite like sports On Sundays in September more families worship at the altar of the NFL than at any church This appeal which cuts across all demographic and ideological lines makes sports perhaps the last unifying mass ritual of our era with huge numbers of people all focused on the same thing at the same moment That timeless live quality impervious to DVR evoking ancient religious rites makes sports very powerful and very lucrative And the media spectacle around them is only getting bigger brighter and noisier from hot take journalism formats to the creeping infestation of advertising to social media celebrity schemes More importantly sports are sold as an oasis of community to a nation deeply divided They are escapist apolitical the only tie that binds In fact precisely because they appear allegedly above politics sports are able to smuggle potent messages about inequality patriotism labor and race to massive audiences And as the wider culture works through shifting gender roles and masculine power those anxieties are also found in the experiences of female sports journalists athletes and fans and through the coverage of violence by and against male bodies Sports rather than being the one thing everyone can agree on perfectly encapsulate the roiling tensions of modern American life Michael Serazio maps and critiques the cultural production of today's lucrative ubiquitous sports landscape Through dozens of in depth interviews with leaders in sports media and journalism as well as in the business and marketing of sports The Power of Sports goes behind the scenes and tells a story of technological disruption commercial greed economic disparity military hawkishness and ideals of manhood In the end despite what our myths of escapism suggest Serazio holds up a mirror to sports and reveals the lived realities of the nation staring back at us
