Informationsvisualisierung Torsten Stapelkamp, 2012-11-29 In diesem Buch wird erläutert was Informationsvisualisierung und Informationsarchitektur ermöglichen und welche Grundlagen und Methodiken erforderlich sind. An Hand relevanter Beispiele verdeutlicht der Autor dass Informationsvisualisierung und die Strukturierung von Informationen für zahlreiche Medien und Einsatzbereiche Internet TV Print Urban Design Architektur etc zwingend erforderlich ist. Die Form der Anwendungen ist dabei vielfältig Infografik Info Maps statistische Daten Diagrammierung Visualisierung Informationsvermittlung für didaktische Zwecke Gebrauchsanleitung Wege und Leitsysteme Signaletik etc. Die Visualisierung von Informationen und deren Strukturierung ist wesentlich für die allgemeine Wissensvermittlung in der Informations- und Kommunikationsgesellschaft. Ein umfassender bebildeter historischer Überblick zeigt dass die Wurzeln der Informationsvisualisierung bis in die Prähistorie zurückreichen. Mit Informationsvisualisierung werden Daten geordnet und für die jeweiligen Adressaten in nutzbare Informationen transformiert. Um Informationsnotwendigkeiten der passenden Adressaten und die Bedürfnisse der Adressaten zu ermitteln ist es sinnvoll die Methoden des Service Design anzuwenden. Diese werden näher erläutert nicht zuletzt weil die Informationsvisualisierung im Service Design ein wichtiges Kommunikationsmittel darstellt. The Archives Aa. Vv., 2015-04-21 T00:00:00+02:00 The digital age has witnessed the development of a new kind of archive immaterial living and moving largely user generated and conceived for managing a wide variety of audio visual materials besides traditional films and videos. The first part of this anthology investigates the ways in which media forms like web documentaries video art and digital art web series amateur productions and also mobile films can be stored and preserved within the new digital repositories. The second part focuses on archival and preservation practices of the video game. This approach understands the archive not simply as a memory box but as a fully contemporary practice that locates new media

objects in the present and acknowledges their changing cultural and social configurations The democratic often immaterial living mobile nature of contemporary archives forces us to question whether or not the traditional notion of the archive still has a heuristic value Or if it would be perhaps better to reject any conventional idea of archive and embrace the notion of an archive
