real feast a smorgasbord This is a magnificent piece of work and the 36 page index rounds it all off splendidly John Blundell Economic Affairs The book covers the most important areas of research of an emerging economic sub discipline spanning the past half a century It serves admirably the purpose of an introduction into the rich and growing area of reflection for all concerned the editors and authors of the Handbook have done a commendable job of accumulating sophisticated material for many economists managers politicians and self conscious fans who are sure to find excellent training ground for the whole heptathlon This book will be invaluable for advanced students investigating professional sport From the point of view of lawyers particularly those engaged with the relationship between law and sports governance the Handbook offers invaluable analysis of the economic issues that are alluded to in those debates but rarely examined in detail These insights will also prove useful for policy analysts and sports administrators for whom many sections should be considered mandatory reading Aleksander Sulejewicz Journal of Contemporary European Research Over 800 pages on the economics of sport What a feast What a treat The editors have done a wonderful job both in terms of breadth from David Beckham to child labour in Pakistan and depth tournaments and luxury taxes for example The 86 chapters are uniformly of a very high standard and illuminating And there are real gems in some of the contributions British Journal on the Economics of Sport This very interesting and comprehensive book achieves its objective namely to present an overview of research in sports economics at an introductory level The editors have produced an excellent reference book that belongs in all academic institutions libraries It provides extensive introduction to the growing body of literature in the rising field of economics of sport The book s relevant monographs should be read by institutions cities and countries prior to their committing major resources towards sports facilities or a sporting event James Angresano Journal of Sports Economics One could think of this book as the sports and economics counterpart to Joy of Cooking because it will satisfy the needs of those with a keen interest in such subjects as the
