Ideas that Work, 1999 *The U.S. Department of Education's Gender Equity Expert Panel* United States. Department of Education. Gender Equity Expert Panel, 2001. The U.S. Department of Education developed the Gender Equity Expert Panel to identify promising and exemplary programs that promote gender equity in and through education. This panel of experts reviewed self-nominated programs to determine whether they met four criteria: evidence of success, effectiveness in promoting gender equity, quality of the program, educational significance and usefulness to others, replicability. Submitted for review during the review cycle from 1996-99 were 100 gender equity products, programs and policies. Eleven exemplary and promising programs are recommended here. The updated reviews in this report provide descriptive and evaluative information on the 11 programs, one recommended as exemplary and 10 as promising. The 11 summary reviews in the report are grouped into four topic areas that generally correspond to expert subpanels: gender equity in vocational technical education and school to work, gender equity in mathematics, science and technology, prevention of violence and sexual and racial harassment in higher education, and gender equity in teacher education and professional development.
