Electronic Media Norman J. Medoff, Barbara K. Kaye, 2016-12-01 Electronic Media Then Now and Later provides a synopsis of the beginnings of electronic media in broadcasting and the subsequent advancements into digital media The Then Now and Later approach focuses on how past innovations laid the groundwork for changing trends in technology providing the opportunity and demand for evolution in both broadcasting and digital media An updated companion website provides links to additional resources chapter summaries study guides and practice quizzes instructor materials and more This new edition features two new chapters one on social media and one on choosing your entertainment

and information experience The then now later thematic structure of the book helps instructors draw parallels and contracts between media history and current events which helps get students more engaged with the material The book is known for its clear concise readable and engaging writing style which students and instructors alike appreciate The companion website is updated and offers materials for instructors an IM PowerPoint slides and test bank [The Review of Reviews](#) William Thomas Stead,1892 **Streaming and Copyright Law** Lasantha Ariyaratna,2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions **Forest and Stream** ,1894
