Law and Technology Nanci K. Carr,2024-09-26 Technology is an important part of our everyday lives Whether we ask Alexa to start the coffee machine or check our phones for the traffic report we increasingly interact with technology As much as we may enjoy and rely upon technology it is not without its challenges including the inability of the law to keep pace with technological developments and

the ethical issues that arise For example tort law is impacted by technology the proliferation of drones requires a new look at the law of trespass and video Zoom meetings can impose direct liability on employers for example Social media supports an increasing share of all advertising and endorsements and is subject to regulation of which influencers are often not aware Global advertising expenditures on various internet and social media platforms also drives the need for a change in right of publicity law In the United States the right of publicity is governed by state rather than federal law so there is no uniform approach One part of the book includes a survey of the law of each US state and proposes a new federal statute Although most of the examples are drawn from the US the issues raised are fully international in scope and relevance This book will appeal to legal practitioners trying to manage new technology issues facing their clients academics teaching students how the law is changing and needs to continue to change as technology develops and teachers and researchers in business and management schools needing to address technology and governance issues The Economics of FinTech Michael

Imerman, Frank J. Fabozzi, 2025-04-22 A groundbreaking comprehensive exploration of how FinTech innovation is reshaping finance Technological innovation has shaped the role of finance since the introduction of the ATM in the 1960s but never more consequentially than by the massive digital revolution in the financial services industry known as FinTech The Economics of FinTech is a comprehensive introduction to this rapidly evolving and increasingly important domain and a groundbreaking exploration of how FinTech is reshaping finance Michael Imerman and Frank Fabozzi distill the dynamic developments of this multidisciplinary field into a cohesive accessible guide that covers the economic underpinnings of FinTech innovation framed within the established principles of financial intermediation management theory and data science Coverage includes in depth analysis of emerging technologies and innovations across various sectors of financial services as well as the entrepreneurial finance of FinTech such as funding valuation and startup management The first book to examine the economic principles of FinTech innovation Comprehensive coverage of financial technologies across various sectors in financial services Ideal for undergraduate and graduate students as well as entrepreneurs investors and finance professionals Instructor resources include solutions slides and case studies **American English File 3E Level 5**

Identity American Experience Philosophical Reflections on Race Rights Capabilities and Oppression is a multidisciplinary study of oppression using the Iranian American community as its case study In current studies of oppression there is little philosophical analysis or a theoretical framework to think about race from the perspective of an immigrant community in the United States that appears to be educated and affluent Iranian Identity American Experience fills this gap Alavi discusses a theory of oppression that addresses not only the external oppression inflicted on people of color but also the everyday actions that leave them in oppressive situations The book ends with suggestions for addressing oppression both individually and as a collective and for fighting to minimize its harms *The Art of Investigation Revisited* Chelsea A. Binns,Bruce

Sackman,2023-09-13 The Art of Investigation Revisited Practical Tips from the Experts examines the qual ities required to be a professional thorough and effective investigator and is a follow up to the authors highly touted book The Art of

Investigation 2019 This book features a wholly new line up of investigators experienced professionals in the field who delve into the soft skills that make an investigator effective Each chapter examines a specific quality required to be a professional thorough and most importantly successful in this challenging discipline The editors and contributing authors are all top in their field and bring a wealth of real world knowledge and experience to the subject While several publications exist on the procedures and steps of an investigation few books cover the creative and intuitive skills required Such traits are necessary to continually question in the face of investigative roadblocks unique qualities endemic to an inquisitive mind that can be trained to improve an investigator s professional skill set Each chapter discusses the applicability of the traits and requirements to the contributor s own work and experience as an investigator In doing so the contributors will provide valuable stories from their personal experience which demonstrates their use or a given trait and its importance in the course of their investigative work and career The case examples included throughout are engaging and as is often the case surprising An investigator must keep an open mind above all else and this book seeks to lift the veil on the inner workings of an investigation and the thought process and inner monologue of an investigator as part of that process The book is a welcome addition to any investigator s toolkit and is also of interest to students in criminal justice security and Homeland Security programs security consultants corporate and private security professionals and the legal community
