**Apple Training Series** Kevin M. White, 2010-04-16 Apple Training Series Mac OS X v10.5 Deployment v10.5 uses a combination of task based instruction and strong visuals to teach intermediate and advanced users how to deploy a wide range of files and systems to multiple users in a large organization Author Kevin White takes readers through the deployment of software ranging from individual files to complete systems to multiple users discussing the range of methodologies used Intermediate users will learn how to use Apple deployment tools including Disk Utility PackageMaker Apple Software Restore and NetBoot Advanced users will learn how to customize deployment solutions with scripts to provide post installation configuration Throughout the book users learn how to tie all of the solutions together to create fully integrated software and hardware deployment plans **Apple Pro Training Series** Adam Green, Matthew Geller, 2006-02-10 The only guide to Apple's enterprise level Storage Area Network solution fully updated for Tiger and Xsan 1.2 Xsan is one of the most powerful flexible and affordable SAN solutions on the market Handy booklet provides invaluable setup configuration and troubleshooting tips Fully updated to cover Tiger and Xsan 1.2 **Apple Training Series** Marc Asturias, Moira Gagen, 2007-05-07 This authoritative Apple Certified training course is designed both for professionals who support Apple computers as well as Macintosh enthusiasts who want to upgrade service or troubleshoot their favorite systems Fully revised this third edition includes Apple's new models with Intel processors the MacBook Pro Mac mini and iMac Keyed to the learning objectives of the Apple Desktop Service and Apple Portable Service certification exams this is the companion curriculum used in AppleCare Technician Training courses worldwide The book starts out with basic computer theory and underlying technologies then moves on to cover everything from networking to the nitty gritty steps and diagrams for upgrading and troubleshooting six sample computer models **Apple Training Series** Robert Kite Ph.D., Michele Hjorleifsson, Patrick Gallagher, 2010-03-08 The follow on to Apple Training Series Mac OS X Deployment v10.6 and Apple Training Series Mac OS X Directory Services v10.6 this volume takes an in depth look at the many options provided to administrators to secure access to intranet services System administrators and other IT professionals will learn how to configure Mac OS X Server v10.6 to provide secure access to vital network services such as web mail and calendar from mobile devices such as the iPhone The Providing Network Services section covers establishing critical network services such as DNS DHCP and NAT Gateway services Systems Services focuses on connecting private and public networks securely using firewalls certificates and VPNs Finally the Working with Mobile Devices section teaches students how to successfully configure Snow Leopard Server's Mobile Access Server and securely deploy intranet services such as web mail and calendar services to mobile devices such as the iPhone without the need for VPN services **Apple Pro Training Series** Arek Dreyer, Ben Greisler, 2013-12-23 This is the official curriculum of Apple's Mavericks 201 OS X Server Essentials 10.9 course and preparation for Apple Certified Technical Coordinator ACTC 10.9 certification as well as a top notch primer for anyone who needs to implement administer

or maintain a network that uses OS X Server on Mavericks This book provides comprehensive coverage of OS X Server and is part of the Apple Pro Training series the only Apple certified books on the market Designed for help desk specialists technical coordinators and entry level system administrators this guide teaches you how to install and configure OS X Server on Mavericks to provide network based services You ll also learn to use tools for efficiently managing and deploying OS X Server In addition to learning key concepts and experiencing hands on practical exercises throughout the book also covers the learning objectives to help you prepare for the industry standard ACTC certification Provides authoritative explanations of OS X Server setup and management on Mavericks Focused lessons take you step by step through practical real world exercises Lesson review questions summarize what you learn to prepare you for the Apple certification exam Lesson files available for download

[Bayesian Optimization in Action](#) Quan Nguyen, 2024-01-09 Bayesian optimization helps pinpoint the best configuration for your machine learning models with speed and accuracy Put its advanced techniques into practice with this hands on guide In Bayesian Optimization in Action you will learn how to Train Gaussian processes on both sparse and large data sets Combine Gaussian processes with deep neural networks to make them flexible and expressive Find the most successful strategies for hyperparameter tuning Navigate a search space and identify high performing regions Apply Bayesian optimization to cost constrained multi objective and preference optimization Implement Bayesian optimization with PyTorch GPyTorch and BoTorch Bayesian Optimization in Action shows you how to optimize hyperparameter tuning A/B testing and other aspects of the machine learning process by applying cutting edge Bayesian techniques Using clear language illustrations and concrete examples this book proves that Bayesian optimization doesn't have to be difficult You ll get in depth insights into how Bayesian optimization works and learn how to implement it with cutting edge Python libraries The book's easy to reuse code samples let you hit the ground running by plugging them straight into your own projects Forewords by Luis Serrano and David Sweet About the technology In machine learning optimization is about achieving the best predictions shortest delivery routes perfect price points most accurate recommendations in the fewest number of steps Bayesian optimization uses the mathematics of probability to fine tune ML functions algorithms and hyperparameters efficiently when traditional methods are too slow or expensive About the book Bayesian Optimization in Action teaches you how to create efficient machine learning processes using a Bayesian approach In it you ll explore practical techniques for training large datasets hyperparameter tuning and navigating complex search spaces This interesting book includes engaging illustrations and fun examples like perfecting coffee sweetness predicting weather and even debunking psychic claims You ll learn how to navigate multi objective scenarios account for decision costs and tackle pairwise comparisons What's inside Gaussian processes for sparse and large datasets Strategies for hyperparameter tuning Identify high performing regions Examples in PyTorch GPyTorch and BoTorch About the reader For machine learning practitioners who are confident in math and statistics About the author Quan Nguyen is a research assistant at Washington University in St

Louis He writes for the Python Software Foundation and has authored several books on Python programming

**Table of Contents**

- 1 Introduction to Bayesian optimization
- 2 Gaussian processes as distributions over functions
- 3 Customizing a Gaussian process with the mean and covariance functions
- 4 Refining the best result with improvement based policies
- 5 Exploring the search space with bandit style policies
- 6 Leveraging information theory with entropy based policies
- 7 Maximizing throughput with batch optimization
- 8 Satisfying extra constraints with constrained optimization
- 9 Balancing utility and cost with multifidelity optimization
- 10 Learning from pairwise comparisons with preference optimization
- 11 Optimizing multiple objectives at the same time
- 12 Scaling Gaussian processes to large datasets
- 13 Combining Gaussian processes with neural networks

Social Psychology in Action Kai Sassenberg, Michael L.W. Vliek, 2019-07-01 This timely and applied textbook brings together leading scientists to illustrate how key theories and concepts in social psychology help to predict and explain behavior and can be successfully applied to benefit social and practical problems It focuses on robust theories and models known for their successful applications and covers a diverse range of settings spanning classroom interventions health behavior financial decision making climate change and much more Each chapter comprises of a theoretical section to define the key concepts and summarize the theory providing evidence for its reliability and limitations from basic research as well as an application section that summarizes research in an applied context and provides details about a particular study including the respective application setting The textbook expertly shows how theory can make meaningful predictions for real world contexts and isn't afraid to explain the potential hurdles and pitfalls when applying a theory and its underlying set of concepts in a certain context Crucially this format moves towards theory testing in applied contexts enabling a closer examination of why and under what circumstances interventions may be successful in obtaining a desired behavioral or psychological end state Among the topics explored Mindset theory of action phases and if then planning Quality of motivation in self determination theory The focus theory of normative conduct Social identity theory and intergroup contact theory Intergroup forgiveness Social Psychology in Action is a critical resource for advanced undergraduate and graduate students in social and cultural psychology as well as students of behavioral economics seeking to develop a deeper understanding of major theories and applications of the fields Practitioners working in the areas of organizational behavior and management health communication social work and educational science and pedagogy will also find the volume pertinent to their work

Biologically Active Natural Products Debarshi Kar Mahapatra, Swati Gokul Talele, Tatiana G. Volova, A. K. Haghi, 2020-12-23 Biologically active natural products and their substructures have long been valuable starting points for medicinal chemistry and drug discovery This new volume explores biologically active natural products and their use in microbial technologies and as phyto pharmaceuticals in drug development It presents detailed scientific principles and recent research on applications of nanotechnology in diagnostics and drug delivery Topics include pharmacotherapeutically active proteins and peptides the biotechnological potential of hydrogen oxidizing bacteria synthesis and production synthetic colorants pigments dyes and lakes and more The use of various plants is discussed in several chapters including *Artemisia* *Asteraceae* *Abutilon indicum* *Prosopis juliflora* *Acacia arabica* *Aloe barbadensis* *Tabermontana divaricate* Linn among others With the information presented in *Biologically Active Natural Products* Microbial Technologies and Phyto Pharmaceuticals in

Drug Development scientists faculty and graduate students will gain a unique insight into nanotechnology and natural pharmaceuticals today with practical implementation in various industrial sectors      **Using Apple Keynote for the Classroom** Donny Wise, 2015-02-19 Learn how to make impactful presentations with Apple Keynote Besides introducing Keynote features this book also teaches you the art of crafting presentations that capture the attention of your audience

*Reconceptualizing Curriculum Development* James Henderson, and Colleagues, 2014-12-05 *Reconceptualizing Curriculum Development* provides accessible clear guidance on curriculum problem solving and educational leadership through the practice of a synoptic curriculum study This practice integrates three influential interpretations of curriculum curriculum as deliberative artistry curriculum as complicated conversation and curriculum as currere with John Dewey's lifetime work on reflective inquiry At its heart the book advances a way of studying as a way of living with reference to the question How might I live as a democratic educator The study guidance is organized as an open ended scaffolding of three embedded reflective inquiries informed by four deliberative conversations Study recommendations are provided by a carefully selected team The field tested study based approach is illustrated through a multi layered multi voiced narrative collage of four experienced teachers personal journeys of understanding in a collegial study context Applying William Pinar's argument that a conceptual montage enabling teachers to lead complicated conversations should be the focus for curriculum development in the field's current post reconceptualist moment the book moves forward the educational aim of facilitating a holistic subject self social understanding through the practice of a balanced hermeneutics of suspicion and trust It closes with a discussion of cross cultural collaboration and advocacy reflecting the interest of curriculum scholars in a wide range of countries in this study based lead learning approach to curriculum development      *Giving Voice to Democracy in Music Education* Lisa C.
