Leadership 2.0 in processes of a sustainable change Prof. Dr. Michael Kurwan, 2025-06-30 Document from the year 2025 in the subject Leadership and Human Resources Leadership language English abstract In order to successfully implement sustainable changes in a company in the context of change processes strong leadership is required at the top of a company which should have a great deal of empathy and a sure instinct in order to position the company in the market in the long term and profitably In order to successfully shape these sustainable changes it will not be the famous power of the leader of the past but will only work with the involvement of employees in the new world of work in the knowledge age which is characterized by digitalization and artificial intelligence This new form of leadership is also referred to as Leadership 2.0 in which it is important to retain top performers and in particular key personnel in the company in the long term which is a very challenging leadership task in HR management In change processes a fundamental distinction must be made between incremental change management and radical change management While incremental change takes place continuously and is integrated into everyday working life radical change represents a strategic realignment of the company which is largely associated with staff reductions and is intended to change the corporate culture This is particularly true in the case of restructuring where cost cutting programs play a decisive role in ensuring the long term survival of the company Employees are more willing to go along with incremental change also known as continuous improvement than radical change as they could also be affected by staff cuts This fuels employees fears and therefore often leads to high staff turnover **Mushroom News**, 2023-07 *The Art of M&A, 6th edition: A Merger, Acquisition, and Buyout Guide* Alexandra Lajoux, 2024-04-19 The authoritative guide M&A professionals have relied on for 35 years with critical new insights and approaches based on lessons learned from major events and trends of the 2020s For senior executives bankers attorneys accountants and others The Art of M&A is the go to resource for anyone conducting or advising on M&A transactions It guides you through all phases of the process covering strategy valuation financing structuring due diligence negotiation closing and integration divestitures Complete with updated research case law tax codes accounting standards and regulations this new edition reflects important changes in practices market trends court decisions and state and federal regulations Updates include New deal examples throughout from Kroger's Albertson to X Holdings Inc Twitter The latest Delaware legal cases affecting merger agreements including fiduciary out and material adverse change clauses critical to buyers and sellers alike Brand new topics such as de SPACing locked boxes the one percent U.S. buyback tax and the pending global minimum tax The Art of M&A is an indispensable resource for anyone engaged in envisioning structuring closing and prospering from deals that benefit everyone involved How to Start-up Mehmet Erdem, Markus Fahringer, Katharina Geweßler, David Gloser, David
