How to Do Comparative Theology Francis X.

Clooney, Klaus von Stosch, 2017-12-12 For a generation and more the contribution of Christian theology to interreligious understanding has been a subject of debate Some think of theological perspectives are of themselves inherently too narrow to support interreligious learning and argue for an approach that is neutral or on a more popular level grounded simply open minded direct experience In response comparative theology argues that theology as faith seeking understanding offers a vital perspective and a way of advancing interreligious dialogue aided rather than hindered by commitments theological perspectives can both complement and step beyond the study of religions by methods detached and merely neutral Thus comparative theology has been successful in persuading many that interreligious learning from one faith perspective to another is both possible and worthwhile and so the work of comparative theology has become more recognized and established globally With this success there has come to the fore new challenges regarding method How does one do comparative theological work in a way that is theologically grounded genuinely open to learning from the other sophisticated in pursuing comparisons and fruitful on both the academic and practical levels How To Do Comparative Theology therefore contributes to the maturation of method in the field of comparative theological studies learning across religious borders by bringing together essays drawing on different Christian traditions of learning Judaism and Islam Hinduism and Buddhism the wisdom of senior scholars and also insights from a younger generation of scholars who have studied theology and religion in new ways and are more attuned to the language of the spiritual but not religious The essays in this volume show great diversity in method and also over and over and from many angles coherence in intent a commitment to one learning from the other and a confidence that one s home tradition benefits from fair and unhampered learning from other and very

different spiritual and religious traditions It therefore shows the diversity and coherence of comparative theology as an emerging discipline today

Comparative Philosophy and the Philosophy of Scholarship Andrew P. Tuck, 1990 This study in cross cultural hermeneutics examines the role that modern Western philosophy has played in the interpretation of Nagarjuna s Madhyamikakarika a second century Indian Buddhist text Tuck locates a structure of distinct phases or styles in modern philosophical history These phases Tuck shows exhibit discontinuous interpretive biases as well as continuity of hermeneutic intention Discovering in each philosophical era a chaacteristic attitude towards the text whether privilege objectivity or neutrality Tuck argues that the continual reinterpretation of earlier scholarly readings is in fact at the core of fruitful hermeneutic pursuit
