Financial Accounting Cases Camillo Lento, Jo-Anne Ryan, 2019-09-16 Canadian Financial Accounting Cases 3rd edition has been developed to bridge the gap between the foundational concepts and the real world. Students are introduced to the case study methodology for financial accounting which focuses on identifying the issue, understanding implications, developing alternatives, and making recommendations. Students must also be able to understand the overall financial reporting landscape and the overall impact of the individual accounting issues. The cases range from introductory level to advanced level and can be used as assignments, exams, or for in-class discussions. The cases have been developed using IFRS Part I, ASPE Part II, or ASNPO Part III as the accounting frameworks, providing students with exposure to many different types of organizational structures and have been linked to the CPA Competency Map. Instructors are provided with detailed teaching notes and marking keys that will assist in guiding the class discussions and assessments.

Money Games David M Carter, 2010-11-09 A compelling perspective on the evolution of sports business provides an excellent roadmap to maximizing the benefits and minimizing the pitfalls. David Stern, NBA Commissioner. The businesses behind Dubai Sports City, the branding of David Beckham, and the popularity of fantasy sports leagues are unmistakable indicators that the sports and the entertainment industries are quickly becoming one and the same. This rapid convergence has been key to the sports business industry's continued growth and financial success. *Money Games* not only analyzes how industry stakeholders have monetized this convergence but also answers this core question: how can the sports business continue to profit from the blurring of sports and entertainment? Author David M. Carter considers a wide array of implications for television content, video gaming, athlete branding, the Internet, mobile technology, gambling, sports, anchored real estate development, venue technology, and corporate marketing in short, those areas where business opportunities exist now that sports and entertainment have become one. Fans, sports, and media executives, and even investors will find that Carter's examination of the changing landscape of sports and entertainment helps them understand their own experiences. Stephen A. Greyser, Harvard Business School. An invaluable resource for stakeholders hoping to monetize sports as entertainment. Kenneth L. Shropshire, Wharton School of the University of Pennsylvania and author of *The Business of Sports Agents*. The strategies and tactics that all the players will want from the boardroom to the locker room can be found in *Money Games*. John Nendick, Ernst Young Global Media Entertainment Industry Leader. Identifies the challenges facing the various sports leagues in delivering fans what they want. Allan H. Bud Selig, Baseball Commissioner.

Touchdown Gerald R. Gems, Gertrud Pfister, 2017-09-30 American football is the most popular and controversial sport in the United States and a massive industry. lives the physical and emotional health of the population and the symbols so long central to a sense of Canadian identity Writing from a variety of perspectives the contributors to this collection set out to explore the impact of the media on our reception of and attitudes toward sports to unpack the meanings that sports have for us as citizens and consumers Some contributors probe the function of sports as spectacle the escalation of violence controversies over drug use and the media's coverage of tragic deaths while others shed light on the way in which the media serve to transform sports into a vehicle for the expression of identity and nationalism The goal is not to score points but to prompt critical discussion of why sports matter in Canadian life and culture and how they contribute to the construction of identity **The Wall Street Journal**
