Macbook Math Worksheet On Sale:

Math Thinker Sheets Becky Daniel, 1988 This booklet designed for students in grades 4-8 provides 52 activities including puzzles and problems. Activities range from simple to complex giving learners practice in finding patterns, numeration, permutation and problem solving. Calculators should be available and students should be encouraged to discuss solutions with classmates, parents and other adults. Working in a group with a given time limit is also suggested. A bonus activity usually very difficult is included on each page for extra credit. Award certificates are provided. The answer key lists possible answers since there are sometimes several acceptable answers for an activity. The booklet is profusely illustrated with black and white line drawings and other graphics. MNS

Good Apple and Math Fun Jerry Aten, 1981 This booklet provides activities to enrich the core of basic mathematics instruction in the intermediate grades. Several learning center ideas are presented throughout the book with general suggestions for the teacher in planning for and managing learning centers. The use of contracts with students is also discussed. Bulletin board ideas are included along with a variety of activities grouped by content: place value and numeration, addition, subtraction, multiplication, division, fractions, decimals, percent, geometry, measurement and graphing, statistics, probability.
