and increasing social consciousness regarding gender disparity and discrimination has helped to make gains over the past several decades to reduce gender disparity for women in the workplace. However, gender discrimination and disparity continue to exist. Women continue to receive lower wages and fewer opportunities for promotion and professional advancement, and this is particularly true in male-dominated professions such as criminal justice. Building on original qualitative data, this book explores the experiences of female criminal justice professionals who have risen to the top of their professional ladders. The book includes first-hand narrative accounts of high-ranking successful professional women working across a range of fields such as policing, courts, corrections, victim and restorative justice services, and criminal justice research agencies in the United States and Canada. This book highlights the barriers that successful female criminal justice professionals have to overcome to obtain their positions and identifies key themes that these women see as having allowed them to break through those barriers and to navigate their professional environments. This book provides students interested in entering the criminal justice field and working professionals already in the field with knowledge about women who have risen through the ranks and up the professional ladder to break through the glass and the brass ceilings of their profession.

Building Brand Communities Carrie Melissa Jones, Charles Vogl, 2020-06-09 An authentic brand community is more than just people buying your product or working alongside one another. This book articulates the critical roles of mutual concern, common values, and shared experiences in creating fiercely loyal customer and collaborator relationships. Smart organizations know that creating communities is the key to unlocking unprecedented outcomes. But too many mistakenly rely on superficial transactional relationships as a foundation for community when really people want something deeper. Carrie Melissa Jones and Charles Vogl argue that in an authentic and enriching community, members have mutual concern for one another, share personal values, and join together in meaningful shared experiences, whether online or off. On the deepest level, brands must help members grow into who they want to be. Jones and Vogl present practices used by global brands like Yelp, Etsy, Twitch, Harley Davidson, Salesforce, Airbnb, Sephora, and others to connect in a meaningful way with the people critical for their success. They articulate how authentic communities can serve organizational goals in seven different areas: innovation, talent, recruitment, customer retention, marketing, customer service, building transformational movements, and creating community forums. They also reveal principles to grow a new brand community to critical mass. This is the first comprehensive guide to a crucial differentiator that gives organizations access to untapped enthusiasm and engagement.
